HRSA Telehealth Focused Rural Health Research Center Program
(Extended Application Deadline: July 1, 2020)

The purpose of this program is to conduct and maintain a thorough and comprehensive evaluation of nationwide telehealth investments in rural areas and populations and conduct clinically informed and policy-relevant research to expand the evidence base for rural telehealth services. LEARN MORE

HUD Fair Housing Initiatives Program - Education and Outreach Initiative (COVID-19)
(Application Deadline: July 8, 2020)

The purpose of this Notice is to seek applications from eligible entities that will create and disseminate fair housing education and outreach materials in COVID-19 affected areas. During this national emergency, HUD wants to remind housing providers and the public of important federal fair housing laws that protect persons from discrimination, including harassment and intimidation in housing and related services on the basis of race, color, religion, national origin, sex, familial status and disability. Persons with disabilities, including those who are older and have underlying medical conditions, are vulnerable and at high risk for a severe, life-threatening response to COVID-19. HUD recognizes that these persons may face unique fair housing and civil rights issues in their fair housing related services. Housing providers are required to make reasonable accommodations that may be necessary to deliver housing and services to persons with disabilities affecting major life activities. In addition, HUD wants to prevent discrimination and harassment against people who, because of racial profiling, are perceived to be associated with this disease. Historically, the number of fair housing complaints increases in the aftermath of a disaster or emergency. The provision of widespread, highly visible outreach and education activities regarding the Fair Housing Act requirements is essential during this critical time to control the number of Fair Housing Act violations. LEARN MORE

USDA Distance Learning & Telemedicine Grants
(Application Deadline: July 13, 2020)

The Distance Learning and Telemedicine program helps rural communities use the unique capabilities of telecommunications to connect to each other and to the world, overcoming the effects of remoteness and low population density. For example, this program can link teachers and medical service providers in one area to students and patients in another. LEARN MORE

NSF Rapid Response Research (RAPID)
(Application Deadline: Rolling)

In light of the emergence and spread of COVID-19 in the United States and abroad, the NSF is accepting proposals to conduct non-medical, non-clinical-care research that can be used immediately to explore how to model and understand the spread of COVID-19, to inform and educate about the science of virus transmission and prevention, and to encourage the development of processes and actions to address this global challenge. NSF encourages the research community to respond to this challenge through existing funding opportunities. In addition, we invite researchers to use the Rapid Response Research (RAPID) funding mechanism, which allows NSF to receive and review proposals having a severe urgency with regard to availability of or access to data, facilities or specialized equipment as well as quick-response research on natural or anthropogenic disasters and similar unanticipated events. Requests for RAPID proposals may be for up to $200K and up to one year in duration. Well-justified proposals that exceed these limits may be entertained. LEARN MORE

FCC COVID-19 Telehealth Program
(Application Deadline: Rolling)

The COVID-19 Telehealth Program will provide $200 million in funding, appropriated by Congress as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, to help health care providers provide connected care services to patients at their homes or mobile locations in response to the novel Coronavirus 2019 disease (COVID-19) pandemic. The Program will provide immediate support to eligible health care providers responding to the COVID-19 pandemic by fully funding their telecommunications services, information services, and devices necessary to provide critical connected care services until the program's funds have been expended or the COVID-19 pandemic has ended. Note that the COVID-19 Telehealth Program is limited to nonprofit and public eligible health care providers that fall within the categories of health care providers in section 254(h)(7)(B) of the 1996 Act. LEARN MORE

Foundation

NCHA COVID-19 Fill the Gap Response Fund
(Application Opens: June 11, 2020)

The North Carolina Healthcare Foundation (NCHF) has formed the COVID-19 Fill the Gap Response Fund to partner with private philanthropy, corporate partners, and major gift donors to rapidly meet critical needs of organizations across North Carolina as they respond to the COVID-19 pandemic. The fund will deploy resources to organizations working on the frontlines of the crisis to address emerging, acute, and long-term needs. The fund is designed to bolster and support the efforts of government and public health officials responding to all aspects of the outbreak in North Carolina. LEARN MORE

Mosaic: COVID-19 Rapid Response Infrastructure RFP
(Application Deadline: July 2, 2020)

Mosaic's mission is to amplify the power of the environmental field—the people and organizations who devote their efforts in pursuit of environmental protection and healthy & just communities—by bolstering the critical infrastructure all movements need to succeed. This unprecedented moment punctuates the necessity for strong movement infrastructure to weather, reinforce, and allow for critical work to persist through extraordinary times. Therefore, Mosaic is launching an open RFP in May 2020 to make $1 million of rapid response grants to individual nonprofit grassroots organizations, and networks of them, focused primarily on environmental protection and/or environmental justice to fund tools & technology, training, and related resources needed as a result of the COVID-19 pandemic. **LEARN MORE**

data.org Inclusive Growth and Recovery Challenge
(Application Deadline: July 17, 2020)

Transformative change can happen only by tapping into the expertise of a broad pool of thinkers and doers. As part of our commitment to building the field of data science for social impact, data. org launched a $10 million data.org Inclusive Growth and Recovery Challenge. The challenge is an open call for breakthrough ideas that harness the power of data science to help people and communities thrive especially in the wake of COVID-19's economic impact. **LEARN MORE**

Call for Code Global Challenge
(Application Deadline: July 31, 2020)

COVID-19, which is caused by the novel coronavirus, has revealed the limits of the systems we take for granted in a very short period of time. Whether it's the massive increase in demand for information during a time of crisis, educating children when schools are closed, or helping communities best distribute limited resources, technology has a pivotal role to play. Through Call for Code, you can see your idea deployed by a global partner ecosystem. **LEARN MORE**

FORE: Strengthening Access to Care for Opioid Use Disorder Patients During the COVID-19 National Public Health Emergency: Recovery Support Services
(Application Deadline: July 31, 2020)

FORE will initiate rapid response grant support for specific projects that aim to strengthen access to evidence-based OUD recovery services for vulnerable and high-risk populations during the COVID-19 national emergency. This RFP targets projects which can provide recovery support services in the context of social distancing and infection control, including promotion of remote, digital, and virtual forms of recovery support to reach vulnerable and broader populations, such as (but not limited to): 1) Rural communities; 2) Urban and minority communities; 3) Children and adolescents; 4) Pregnant and parenting women; 5) Veterans; 6) Justice-involved individuals; 7) Homeless population; 8) LGBT community; and 9) Native American and tribal communities. Areas of special interest include strategies that link individuals to recovery supports at transition points, such as release from jail or discharge from an inpatient or residential program. The impact of the pandemic is likely to be felt for a significant amount of time, especially among those with OUD and those working to maintain connection to and treatment for them. It is

important that innovative solutions that emerge from this pandemic are identified and spread to produce long-lasting improvements. Competitive applications will demonstrate clear, immediate, short-term needs, as well as the potential for lessons learned to inform long-term, broader impact and scalability. Applicants must also demonstrate a commitment to and support for the proposed project from their organizational leadership. **LEARN MORE**

Mozilla Open Source Support Program (MOSS): COVID-19 Solutions Fund
(Application Deadline: Rolling)

Mozilla is announcing today the creation of a COVID-19 Solutions Fund as part of the MOSS Program. Through this fund, we will provide awards of up to $50,000 each to open source technology projects which are responding to the COVID-19 pandemic in some way. The MOSS Program, created in 2015, broadens access, increases security, and empowers users by providing catalytic funding to open source technologists. We have already seen inspiring examples of open source technology being used to increase the capacity of the world's healthcare systems to cope with this crisis. For example, just a few days ago, the University of Florida Center for Safety, Simulation, and Advanced Learning Technologies released an open source ventilator. We believe there are many more life-saving open source technologies in the world. As part of the COVID-19 Solutions Fund, we will accept applications that are hardware (e.g., an open source ventilator), software (e.g., a platform that connects hospitals with people who have 3D printers who can print parts for that open source ventilator), as well as software that solves for secondary effects of COVID-19 (e.g., a browser plugin that combats COVID related misinformation). **LEARN MORE**

Open Road Alliance
(Application Deadline: Rolling)

The effect of the COVID-19 pandemic on the impact sector has reached natural disaster proportions in its scope and scale, which means that the global need for our 'emergency' capital vastly outstrips our available resources. Given this reality, we have decided to use our limited resources to best serve the sector under the following circumstances: 1) Charitable Grants: Will only be offered to organizations responding directly to COVID-19. Awards can be up to $100,000. 2) Loans: Open Road will be offering four loan products to organizations affected by COVID-19: i) Lost Event Revenue, ii) Accelerating Incoming Emergency Funds, iii) Co-investment to Support Social Enterprises, and iv) Deep Impact Loans. As always, all of our grant and loan products will be subject to Open Road's traditional criteria: We only make a loan or grant to an organization that is 1) otherwise fully funded, then 2) hit an unexpected, external roadblock (i.e., COVID-19), where 3) Open Road's loan can fully solve the problem at hand and 4) demonstrate the potential to create catalytic impact. In this time of exceptional need, we will be prioritizing impact. **LEARN MORE**

Adira Foundation: Fast-Track Response COVID-19
(Application Deadline: Rolling)

As people all over the world are joining together to slow the spread of the coronavirus and its impact on daily life—an effort that changes daily and differs city to city and state to state—Adira Foundation is redirecting some funding to meet immediate and pressing need in our community. Adira's community—made up of five communities: Alzheimer's disease, ALS (amyotrophic lateral sclerosis), Huntington's disease, multiple sclerosis, and Parkinson's disease—is the most

important aspect of who we are and what we do. Our purpose is to work together to better the lives of people with neurodegenerative diseases that in the best of times face challenges and barriers that a person with typical health rarely experience. As such, we will grant $50,000 total to organizations working to support the many individuals with neurodegenerative diseases and those who love and care for them during this uncertain time. In brief, Adira's emergency grant response will: 1) Focus on organizations that provide emergency-response, direct-service programs to the Alzheimer's disease, ALS, Huntington's disease, multiple sclerosis, or Parkinson's disease communities. Our grants will go to qualifying nonprofit organizations (not individuals); 2) Award grantees up to $10,000. Smaller projects are encouraged to apply; 3) Focus on collaboration between communities and sectors, aggregating disease communities, and simplifying navigation of difficult systems—in alignment with our mission; and 4) Fast track the application process so that organizations seeking financial support can provide necessary emergency services without delay. **LEARN MORE**

Omidyar Network COVID-19 Economic Response Advocacy Fund
(Application Deadline: Rolling)
The Omidyar Network COVID-19 Economic Response Advocacy Fund will infuse 501c4 funding into national, state, and local advocacy and organizing efforts aimed at passing economic stimulus to address the immediate toll of the COVID-19 pandemic on working people while reshaping our economic structure to ensure they are less vulnerable in the future. Between now and the end of this year, Omidyar Network plans to award $1.5 million to groups working to realign this nation's economic policies and systems so that they work better for everyone. The Fund is not intended to support entirely new efforts. Funds will go to campaigns that are already in motion and can leverage 501c4 dollars to capture the attention of policymakers and propel their ideas forward. Omidyar Network will continue to review applications and award 501c4 funding to support advocacy response work on a rolling basis throughout the rest of the year, with a focus on: 1) Direct advocacy efforts to achieve policy or regulatory solutions at the national, state, or local level that protect and assist working people and small businesses now and establish new precedents that improve worker power and well-being in the future; 2) Digital organizing that reconfigures campaigns that can no longer be carried out in person due to the virus; and 3) Strategic communications, coordination, and narrative development efforts that bring like-minded organizations together to create a louder, more unified voice calling for policy and regulatory changes at the national, state, or local level that result in a stronger economy. **LEARN MORE**

RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health
(Application Deadline: Rolling)
Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. **LEARN MORE**

DataValidation COVID-19 Relief Fund
(Application Deadline: Rolling)
DataValidation is announcing a $1M relief fund in DataValidation services to support small and medium sized businesses impacted by the COVID-19 pandemic. During this time when we all have to #stayhome it is more important than ever to communicate effectively with customers online. E-mail is a crucial part of that communication effort for all businesses and ensuring your email data is of pristine quality is of utmost importance. However we understand that many businesses need to cut budgets in order to survive. That is why we are launching the DataValidation relief fund so that every business that is affected by this crisis can continue to communicate safely and effectively with their customers, knowing that their data is verified and ready to deliver. **LEARN MORE**

Hello Alice COVID-19 Business for All Emergency Grant
(Application Deadline: Rolling)
Hello Alice is offering $10,000 grants being distributed immediately to small business owners impacted by coronavirus, as part of our broader mission to ensure Business for All. In addition to funding, grant recipients will receive ongoing support from the Hello Alice community. **LEARN MORE**

NCOA COVID-19 Community Response Fund
(Application Deadline: Rolling)
The NCOA COVID-19 Community Response Fund was created to raise and distribute funds to hard-hit community-based organizations that are directly serving older adults during the pandemic. The Fund will provide grants to qualified local nonprofits that are meeting the critical needs of older adults, allowing them to stay safe, secure, and healthy in their own homes during the crisis. **LEARN MORE**

EoS Foundation's COVID-19 Response: Community-Wide Emergency Children's Meals Grant Program
(Application Deadline: Rolling)
To help ensure the nutritional safety net for children during school closures, school districts are eligible to apply for emergency grants of up to $10,000. Monies may be used for equipment and supplies necessary to increase the numbers of meals served, including mobile and delivered meal solutions. **LEARN MORE**

Facebook for Business: Small Business Grants Program
(Application Deadline: Rolling)
We know that your business may be experiencing disruptions resulting from the global outbreak of COVID-19. We've heard that a little financial support can go a long way, so we're offering $100M in cash grants and ad credits to help during this challenging time. **LEARN MORE**

Draper Richards Kaplan Foundation: Coronavirus Urgent Response Initiative
(Application Deadline: Rolling)
DRK is ready to find, fund and support the people and ideas that are tackling the most acute and time-critical social problems caused by the Covid-19 pandemic right now. We want to help jumpstart projects that can realistically deploy within 30 days. We are best positioned to help

work on the social problems caused by the pandemic versus direct mitigation via medical and scientific efforts – we are grateful to our peer funders in those sectors who are investing in therapeutics, PPE, testing and the like. We anticipate the range of missions to be broad, and are open to what those look like. The projects we are looking for will have the same essential qualities as the core DRK portfolio but will be designed for more immediate scale. We will filter potential investments through the lens of urgency: Can this make large impact at scale? Can it be deployed quickly? And can DRK be catalytic in making that happen? **LEARN MORE**

International Alliance for the Protection of Heritage in Conflict Areas (ALIPH): COVID-19 Emergency Grants
(Application Deadline: Rolling)

The COVID-19 pandemic is already having a significant impact on the protection of cultural heritage in conflict areas, through the postponement of planned work and the potential destabilization of the local economic and social fabric. Indeed, this health crisis may lead to deeper and lasting transformations in the cultural heritage sector. Consequently, to remain faithful to its values of solidarity and partnership, ALIPH has set up an extraordinary relief fund to support the heritage sector in the face of the COVID-19 pandemic. The proposed support mechanisms should meet urgent needs, while taking into account foreseeable long-term transitions. **LEARN MORE**

One Young World: COVID-19 Young Leaders Fund
(Application Deadline: Rolling)

One Young World, the global forum for young leaders, is establishing a fund for young leaders on the frontlines of the COVID-19 response. Around the world, One Young World Ambassadors are combatting the Coronavirus with the most innovative methods in the most challenging circumstances. By directing money to leaders on the front lines, we can insure that resources are being accessed by those who need them most. This global crisis demands a global response. One Young World will meet that challenge. **LEARN MORE**

Enterprise Community Partners: Emergency Action for Resident and Partner Stability Program
(Application Deadline: Rolling)

In response to Covid-19, our Emergency Action for Resident and Partner Stability program is moving swiftly to ensure that vulnerable, low-income families and individuals can remain in their homes and access support during this crisis. This new Enterprise program offers nonprofit community partners a broad range of support, including: 1) Emergency grants to allow organizations to stay afloat through payroll support and other assistance, as well as meet the immediate needs (such as rent, utilities and resident services) for families and individuals they serve; 2) Immediate and long-term guidance on resilience planning and financial strategies, as well as other technical assistance and training to help community-based nonprofits remain viable; and 3) Support to organizations seeking critical government relief funds and other interventions that can help address residents' and communities' needs. Through policy advocacy at the federal, state and local levels, Enterprise will continue working to restore and protect services and support for vulnerable communities and residents affected by the pandemic. **LEARN MORE**

Novartis US COVID-19 Community Response Fund
(Application Deadline: Rolling)
In response to the COVID-19 pandemic, the Novartis US Foundation has established the US COVID-19 Community Response Fund to support local initiatives and communities in the US impacted by the outbreak. The fund will provide up to $5 million over a one-year period for immediate response and recovery efforts related to the pandemic. **LEARN MORE**

Community Foundation of Henderson County: Henderson County COVID-19 Response Fund
(Application Deadline: Rolling)
United Way of Henderson County and Community Foundation of Henderson County have created the Henderson County COVID-19 Response Fund that will rapidly deploy resources to community-based organizations at the frontlines of the coronavirus in Henderson County. **LEARN MORE**

Community Foundation of Burke County: COVID-19 Community Emergency Response Fund
(Application Deadline: Rolling)
CFBC will make grants to tax-exempt, 501(c) (3) organizations that have programs benefiting the residents of Burke County. **LEARN MORE**

Healthcare and Behavioral/Mental Health Grants
Federal

CDC Strategies to Maintain HIV Viral Suppression Among State Prison Inmates Released to the Community
(Application Deadline: June 29, 2020)
This NOFO aims to develop effective, sustainable, and replicable program models that support continuity of HIV care for PWH released from state prisons into the community. Programs will emphasize linkage to and retention in community HIV care, adherence to HIV treatment, and suppression of HIV viral load. Programs should also identify PWH and HIV-negative persons at risk for HIV among sex and drug-injection partners and associates of program participants and link them to care. **LEARN MORE**

HRSA Rural Residency Planning and Development Program
(Application Deadline: June 30, 2020)
The purpose of this program is to develop newly accredited and sustainable rural residency programs in family medicine, internal medicine, public health and general preventive medicine, psychiatry, general surgery, and obstetrics and gynecology, to support expansion of the physician workforce in rural communities. The new rural residency programs will: 1) achieve accreditation through the Accreditation Council for Graduate Medical Education (ACGME), 2) ensure sustainability through public or private funding beyond the RRPD period of performance, and 3) track residents' career outcomes post-graduation, including but not limited to retention in rural communities. Funds will support planning and development costs accrued while achieving

program accreditation. Hospitals, medical schools and community-based ambulatory settings that have a rural designation along with consortia of urban and rural partnerships are eligible to apply for a grant award. **LEARN MORE**

ACF Title V Competitive Sexual Risk Avoidance Education
(Application Deadline: July 2, 2020)

The purpose of Title V Competitive SRAE is to fund projects to implement education exclusively on sexual risk avoidance that teaches youth participants to voluntarily refrain from non-marital sexual activity. The goals of CSRAE are to empower participants to make healthy decisions, and provide tools and resources to prevent pregnancy, sexually transmitted infections (STIs), and youth engagement in other risky behaviors. Applicants are expected to submit plans for the implementation of sexual risk avoidance education that normalizes the optimal health behavior of avoiding non-marital sexual activity, with a focus being on the future health, psychological well-being, and economic success of youth. Successful applicants must agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. The plans should address the social, psychological, and health gains to be realized by refraining from non-marital sexual activity and engaging in healthy relationships. The SRAE legislation requires unambiguous and primary emphasis and context for each of the topics to be addressed in program implementation. Additionally, there is a requirement that messages to youth normalize the optimal health behavior of avoiding non-marital sexual activity. **LEARN MORE**

ACF Basic Center Program
(Application Deadline: July 3, 2020)

The Runaway and Homeless Youth Program's Basic Center Program (BCP) provides temporary shelter and counseling services to youth who have left home without permission of their parents or guardians, have been forced to leave home, or other homeless youth who might otherwise end up in the law enforcement or in the child welfare, mental health, or juvenile justice systems. BCPs work to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. BCPs provide youth under 18 years of age with emergency shelter, food, clothing, counseling and referrals for health care. BCPs can provide up to 21 days of shelter for youth and seeks to reunite young people with their families, whenever possible, or to locate appropriate alternative placements. Additional services may include: street-based services; home-based services for families with youth at risk of separation from the family; drug abuse education and prevention services; and at the request of runaway and homeless youth, testing for sexually transmitted diseases. **LEARN MORE**

HRSA Rural HIV/AIDS Planning Program
(Application Deadline: July 10, 2020)

The purpose of this program is to assist in the planning and development of an integrated rural HIV health network for HIV care and treatment that will collaboratively plan to address key strategies identified in 'Ending the HIV Epidemic: A Plan for America. **LEARN MORE**

HRSA Rural Communities Opioid Response Program – Planning
(Application Deadline: July 13, 2020)

RCORP is a multi-year HRSA initiative aimed at reducing morbidity and mortality resulting from substance use disorder (SUD), including opioid use disorder (OUD), in high risk rural communities. This funding opportunity, RCORP-Planning, will advance RCORP's overall goal by strengthening and expanding the capacity of rural communities to provide SUD/OUD prevention, treatment, and recovery services. **LEARN MORE**

CDC Preventing Adverse Childhood Experiences Data to Action
(Application Deadline: July 13, 2020)

The two primary goals of this NOFO are 1) to build a state-level surveillance infrastructure that ensures the capacity to collect, analyze, and use ACE data to inform statewide ACE prevention activities; and 2) to support the implementation of data-driven, comprehensive, evidence-based ACE primary prevention strategies; and provide technical support to states in these efforts. This NOFO has three required foci to support these goals – 1) enhance or build the infrastructure for the state-level collection, analysis, and application of ACE-related surveillance data that can be used to inform and tailor ACE prevention activities, 2) implement strategies based on the best available evidence to prevent ACEs, and 3) conduct data to action activities to continue to assess state-wide surveillance and primary prevention needs and make needed modifications. The work of these foci, and the infrastructure and expertise exerted to accomplish that work, should be interdependent and should be planned and implemented as part of a comprehensive and coordinated ACE prevention dynamic system that reflects the 10 Essential Public Health Services promoted by CDC. **LEARN MORE**

CDC Pregnancy Risk Assessment Monitoring System (PRAMS)
(Application Deadline: July 15, 2020)

This NOFO solicits applications to: 1) implement standardized surveillance of postpartum women with a recent live birth or stillbirth on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy; 2) implement surveillance on emerging issues related to maternal and child health that arise during the data collection cycle including post-disaster or emergency surveillance; and 3) ensure collection of timely, high quality data for ongoing monitoring of maternal and infant health to inform programs, research, and system changes. The activities in the NOFO will be conducted under three separate Components of funding: Component A: Core Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy, including emerging issues, among women with a recent live birth in up to 53 vital records jurisdictions. Component B: Point-in-time Tribal Surveillance - To implement a point-in-time (one time, one birth year) surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women with a recent live birth in up to 2 federally recognized American Indian Tribes, Alaska Native Villages, or Urban Indian Organizations (UIOs) with at least 1,000 live births annually or tribal organizations that support American Indian Tribes, Alaska Native Villages or Urban Indian Organizations with a service area that covers at least 1,000 live births annually. Component C: Stillbirth Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior

to, during, and shortly after pregnancy among women who recently experienced a stillbirth in up to 2 vital records jurisdictions. **LEARN MORE**

HRSA Rural Communities Opioid Response Program – Neonatal Abstinence Syndrome (RCORP-NAS)
(Application Deadline: July 20, 2020)

The purpose of the RCORPNAS project is to advance RCORP's overall goal and reduce the incidence and impact of Neonatal Abstinence Syndrome (NAS) in rural communities by improving systems of care, family supports, and social determinants of health. **LEARN MORE**

HRSA Children's Hospitals Graduate Medical Education (CHGME) Payment Program
(Application Deadline: July 24, 2020)
(Supplemental Info Deadline: August 28, 2020)

The purpose of this program is to fund freestanding children's hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. **LEARN MORE**

OASH Pregnancy Prevention Research Grants
(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will conduct research that would make significant contributions to the mission of the Office of Population Affairs and to the pregnancy prevention and family planning fields. Under this announcement, research and evaluation projects that encourage healthy behavior choices to delay the onset of sexual activity, reduce number of sexual partners, and if sexually active, encourage the use of preventative measures for STIs and pregnancy will be considered. These grants are for research that can be conducted within 1-2 years, such as secondary data analyses using existing program and evaluation data or administrative data. Potential areas of investigation include, but are not limited to: 1) Identify factors that improve the efficiency, effectiveness, and quality of pregnancy prevention programs for adolescents or young adults, or reduce disparities, by age, gender, race/ethnicity, or setting; 2) Identify and/or validate core program components or "active ingredients" essential for programs and practices to produce the desired outcomes; 3) Identify specific characteristics of program models, participants, or program implementation associated with program impacts; and 4) Apply innovative methods or techniques from other disciplines that are novel to pregnancy prevention research such as network analysis, matching and distillation techniques, system dynamics modeling or geographic information systems, to address questions beyond the general effectiveness of pregnancy prevention programs. **LEARN MORE**

OASH Research to Practice Center Grants for Adolescent Health Promotion in Order to Prevent Teenage Pregnancy
(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will synthesize and translate existing research into practice for health promotion activities that will lead to adoption of healthy behaviors and ultimately help to reduce teen pregnancy. Subject to availability of funds, OPA will fund no more than one grant per priority area. Organizations may apply for more than one priority area; 3 however, each application may only address a single priority area. Funded organizations will be referred to from here on as "centers". The national centers will be expected to coordinate

and collaborate with each other, OPA, and potentially other OPA grantees conducting research in related topic areas. OPA expects Centers to evaluate or assess best practices, approaches or strategies in a priority protective area and make that information easily accessible to health providers, caregivers and others working with youth to prevent teen pregnancy. OPA expects Centers to address important and relevant topic areas related to adolescent health promotion, including addressing how the reduction of other risky behaviors (such as substance abuse) would aid in pregnancy prevention. Priority areas include but are not limited to: 1) engaging parents and caregivers; 2) environments supportive of healthy behaviors; 3) fostering positive connections to schools, neighborhoods and communities; 4) · active and meaningful youth engagement; or 5) working with youth serving professionals in the systems that serve the most vulnerable youth populations. OPA expects the Centers to have a high caliber of scientific and technical competency, be forward-looking, provide strong leadership, and collaborate with stakeholders and community partners including state and local health agencies and non-profit, community (including youth and parents) and non-governmental organizations in the development and delivery of research to practice products. **LEARN MORE**

NIMH Research Education Mentoring Program for HIV/AIDS Researchers (R25)
(LOI Deadline: August 7, 2020)
(Application Deadline: September 7, 2020)
The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nation's biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR). To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on Research Experiences and Mentoring Activities that either capitalize on existing networks of collaborating investigators or develop institute-based research education programs. Both research experiences and mentoring activities are required; research experiences are expected to be primary. Research Education Programs are expected to enhance the professional development of the participants and foster a career trajectory towards independent research in the mental health of HIV/AIDS. **LEARN MORE**

Foundation

Pfizer Transthyretin Cardiac Amyloidosis Fellowship
(Application Deadline: June 29, 2020)

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies. Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a specific area of interest, sets timelines for review and approval, and uses an external review panel (ERP). Institutions are invited to submit an application as outlined in the specific RFP. This RFP reflects Pfizer's commitment to advancing research, innovation, and training for medical, nursing, and allied health professionals. LEARN MORE

NIHCM Investigator-Initiated Health Services Research Grants
(LOI Deadline: June 29, 2020)

To support innovative health services research that will advance the existing knowledge base in the areas of health care financing, delivery, management and/or policy. Studies must have strong potential to yield insights that can be used to have a positive impact on the U.S. health care system by improving efficiency, quality, access to care, preparedness or equity. Studies involving direct patient care or clinical, bench science research are not relevant for this solicitation. LEARN MORE

Gordon and Betty Moore Foundation: Development of Clinical Quality Measures to Improve Diagnosis
(Application Deadline: June 30, 2020)

The purpose of this funding opportunity is to provide assistance in the form of grants for the development of innovative clinical quality measures that promote excellence in diagnosis of three categories of disease – acute vascular events, infections and cancer. LEARN MORE

ACC Cardiovascular Quality or Performance Improvement Initiatives
(Application Deadline: June 30, 2020)

The American College of Cardiology's (ACC's) Accreditation Services' helps hospitals improve care for patients with acute coronary syndromes (ACS), heart failure (HF), and atrial fibrillation (AF). We believe this is best accomplished by using quality and process improvement scientific methods. In an effort to support cardiovascular quality and performance improvement, the ACC provides funding opportunities that support future cardiovascular quality initiatives (QI) or performance improvement (PI), particularly those that highlight the importance of accreditation. Focus areas of desired projects or proposals include those that support cardiovascular quality improvement of cardiovascular care and patient outcomes that: 1) contribute to the evidence base for accreditation; 2) develop or evaluate cardiovascular quality initiatives that strengthen the accreditation process; 3) provide opportunities for education that support quality or performance improvement projects; 4) improve EMS systems of care in collaboration with community hospitals providing accreditation services; and 5) provide public health education to improve community measures/outcomes related to early recognition of heart attack symptoms and appropriate action steps. RWJF Identifying the Next Phase of Leadership and Management for the RWJF Culture of Health Prize
(Application Deadline: July 31, 2020)

This request seeks an entity to lead the next two-year phase of the leadership and management of the RWJF Culture of Health Prize, which will include 2022–2023 cohorts of winners and initial planning for the 2024 cohort. This call for proposals provides background on the RWJF Culture of Health Prize and outlines responsibilities for an organization selected to take on the next phase of leadership and management. **LEARN MORE**

Hearst Foundations Grants
(Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. **LEARN MORE**

Alkermes Education Grants
(Application Deadline: Rolling)

Alkermes contributes to independent education by supporting educational grants. Our focus areas include educational activities with pragmatic approaches to improve patient care and public health in the domains of schizophrenia, depression, and alcohol and opioid dependence. We expect to contribute to a better and expanded understanding of the underlying mechanisms of disease and their relevance to medications that address those characteristics, as well as the overall treatment in a broad sense that includes psychosocial methods. **LEARN MORE**

RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health
(Application Deadline: Rolling)

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. **LEARN MORE**

The purpose of this program is to fund freestanding children's hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. LEARN MORE

NIMH Research Education Mentoring Program for HIV/AIDS Researchers (R25)
(LOI Deadline: August 7, 2020)
(Application Deadline: September 7, 2020)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nation's biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR). To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on Research Experiences and Mentoring Activities that either capitalize on existing networks of collaborating investigators or develop institute-based research education programs. Both research experiences and mentoring activities are required; research experiences are expected to be primary. Research Education Programs are expected to enhance the professional development of the participants and foster a career trajectory towards independent research in the mental health of HIV/AIDS. Foundation

Pfizer Transthyretin Cardiac Amyloidosis Fellowship
(Application Deadline: June 29, 2020)

Pfizer Global Medical Grants (GMG) supports the global healthcare community's independent initiatives (e.g., research, quality improvement or education) to improve patient outcomes in areas of unmet medical need that are aligned with Pfizer's medical and/or scientific strategies. Pfizer's GMG competitive grant program involves a publicly posted Request for Proposal (RFP) that provides detail regarding a specific area of interest, sets timelines for review and approval, and uses an external review panel (ERP). Institutions are invited to submit an application as outlined in the specific RFP. This RFP reflects Pfizer's commitment to advancing research, innovation, and training for medical, nursing, and allied health professionals. LEARN MORE

Foundation for Child Development: Young Scholars Program
(LOI Deadline: June 30, 2020)

The Young Scholars Program (YSP) supports scholarship for early career researchers. The program funds implementation research that is policy and practice-relevant and that examines the preparation, competency, compensation, well-being, and on-going professional learning of the early care and education (ECE) workforce. The Foundation regards diversity as an asset for building a strong and productive society and is committed to diversity and equity in scholarship and through our grantees. To increase the diversity of research perspectives, the Foundation encourages applications from: 1) Scholars who are from underrepresented groups that have historically experienced economic instability and social exclusion, including, but not limited to: researchers of color, first-generation college graduates, culturally and linguistically diverse scholars, and researchers from low-income communities; and 2) Scholars who represent a variety of disciplines and methodological approaches. ACF Domestic Victims of Human Trafficking Services and Outreach (DVHT-SO) Program
(Application Deadline: June 24, 2020)

The goal of the DVHT-SO Program is to fund organizations that will build, expand, and sustain organizational and local capacity to deliver services to domestic victims of severe forms of human trafficking as defined by the Trafficking Victims Protection Act of 2000 through the provision of direct services, assistance, and referrals. Under the DVHT-SO Program, the following activities are required: 1) provision of comprehensive case management to domestic victims of human trafficking; 2) outreach efforts to increase identification of victims of sex and labor trafficking; and 3) training to service providers and community partners. The DVHT-SO Program is informed by a whole-family approach that focuses equally and intentionally on services and opportunities for victims and their immediate family members living within their households. OTIP is encouraging the establishment of community partnerships, meaningful engagement of survivors, and the hiring of qualified professionals that reflect the communities being served in all project implementation strategies under the DVHT- SO Program. Under DVHT-SO there is a 12-month project implementation period for the funding recipient to facilitate optional partnerships, on-board new staff, develop victim service protocol, and develop a sustainability plan. Under the DVHT-SO Program, there is a statutorily mandated 25 percent match (cash or in-kind) requirement. **LEARN MORE**

ACYF Street Outreach Program
(Application Deadline: June 29, 2020)

The Runaway and Homeless Youth (RHY) Program's Street Outreach Program (SOP) provides street-based services to runaway, homeless, and street youth who have been subjected to or are at risk of being subjected to sexual abuse, prostitution, sexual exploitation, and severe forms of human trafficking in persons. These services, targeted in areas where street youth congregate, are designed to assist such youth in making healthy choices and providing them access to shelter as well as basic needs, including food, hygiene packages and information on a range of available services. **LEARN MORE**

HUD Estimating the Prevalence and Probability of Homeless Youth
(Application Deadline: July 1, 2020)

The U.S. Department of Housing and Urban Development (HUD) issues this Notice of Funding Availability (NOFA) to invite applications from eligible applicants to meet the requirements for youth research activities authorized under Section 345 of the Runaway and Homeless Youth Act, which calls for "using the best quantitative and qualitative social science research methods available to produce estimates of the incidence and prevalence of runaway and homeless individuals who are not less than 13 years of age but are less than 26 years of age; and that includes with such estimate an assessment of the characteristics of such individuals." In 2019, HUD published the Voices of Youth Count (VoYC) Study that met the basic requirements of the Act. Using a broad definition of youth homelessness, the VoYC Study offered a nationally representative estimate of homeless youth using Gallup phone-based household surveys, as well as point-in-time estimates of homeless youth based on street and shelter counts.

Patterns and subpopulations of homeless youth were identified using qualitative in-depth interviews. To date, however, methods for estimating and predicting the number of homeless youth by linking administrative data from multiple sources have not been fully developed. Section 345 of the Runaway and Homeless Youth Act provides for "such other information as the Secretary determines, in consultation with States, units of local government, and national nongovernmental organizations concerned with homelessness, may be useful." HUD therefore seeks proposals for other information and methods that supplement the findings from the VoYC Study. Such additional information that can be used to produce estimates of the incidence and prevalence of homeless youth may include the integration of administrative data from local, state, and federal institutions that engage at-risk or homeless youth, such as child welfare agencies, juvenile justice and correctional systems, schools, and hospitals. **LEARN MORE**

ACF Family, Relationship, and Marriage Education Works - Adults (FRAMEWorks)
(Application Deadline: July 1, 2020)

The Family, Relationships, and Marriage Education Works-Adult (FRAMEWorks) Program will be targeted exclusively to projects designed for adult individuals or adult couples, defined as persons who are age 18 and older. Applicants will be asked to submit proposals that are designed to implement programs that include a broad array of service provision strategies. These include curriculum-based skills development and services designed to support family strengthening activities through one or more of seven activities specified under the authorizing legislation: marriage and relationship education/skills (MRES); pre-marital education; marriage enhancement; divorce reduction activities; marriage mentoring; public advertising campaigns; and activities to reduce the disincentives to marriage. Applicants will be encouraged to also include services to promote employment and job and career advancement. Applicants will be strongly encouraged to submit a proposal to implement one specific program model designed for one specific service population, e.g. adult individuals or adult couples, but not multiple models for multiple populations. ACF is interested in funding a diverse range of projects, from high impact projects, to moderate scope projects, to smaller scope projects. Applicants must provide evidence of organizational capacity to implement their proposed project. **LEARN MORE**

ACF Relationships, Education, Advancement, and Development for Youth for Life (READY4Life)
(Application Deadline: July 1, 2020)

The Relationships, Education, Advancement, and Development for Youth for Life (READY4Life) grants will be targeted exclusively to youth, for projects designed to support healthy relationships and marriage, including the value of marriage in future family formation and skills-based healthy relationship and marriage education. Additionally, grants will support activities including parenting (for young fathers and mothers, as applicable), financial management, job and career advancement, and other activities. Projects must be targeted to youth, specified as individuals in high school (grades 9-12), or that are high-school aged or in late adolescence and early adulthood (ages 14 to 24). Applicants must submit proposals designed for youth as specified. Applicants will be strongly encouraged to design programs targeted to one specific program model for one specific service population – e.g., youth in general high school settings, youth aging out of foster care, or youth who are parents– but not multiple models for multiple populations. Grants

awarded will support family formation and strengthening activities through one or more of three healthy marriage promotion activities specified under the authorizing legislation: (1) marriage and relationship education/skills (MRES); (2) education in high schools; and (3) public advertising campaigns. ACF is interested in funding a diverse range of projects, from high impact projects, to moderate scope projects, to smaller scope projects. Applicants must provide evidence of organizational capacity to implement their proposed project. LEARN MORE

ACF Fatherhood - Family-focused, Interconnected, Resilient, and Essential (Fatherhood FIRE)
(Application Deadline: July 1, 2020)

The Fatherhood Family-focused, Interconnected, Resilent, and Essential Grants (Fatherhood FIRE) will be targeted exclusively to projects designed for adult fathers, defined as fathers that are age 18 and older. Eligible fathers (or father figures) must have children who are age 24 or younger. Fathers will include those in the general population (or "community fathers"), as well as fathers who are currently incarcerated and are returning, or have returned, to their families and communities following incarceration. Applicants will be strongly encouraged to submit a proposal to implement one specific program model designed for one specific service population – e.g., rural community fathers, reentering fathers, or urban community fathers– but not multiple models for multiple populations. ACF is interested in funding a diverse range of projects, from high impact projects, to moderate scope projects, to smaller scope projects. Applicants must provide evidence of organizational capacity to implement their proposed project. LEARN MORE

ACF Title V Competitive Sexual Risk Avoidance Education
(Application Deadline: July 2, 2020)

The purpose of Title V Competitive SRAE is to fund projects to implement education exclusively on sexual risk avoidance that teaches youth participants to voluntarily refrain from non-marital sexual activity. The goals of CSRAE are to empower participants to make healthy decisions, and provide tools and resources to prevent pregnancy, sexually transmitted infections (STIs), and youth engagement in other risky behaviors. Applicants are expected to submit plans for the implementation of sexual risk avoidance education that normalizes the optimal health behavior of avoiding non-marital sexual activity, with a focus being on the future health, psychological well-being, and economic success of youth. Successful applicants must agree to use medically accurate information referenced to peer-reviewed publications by educational, scientific, governmental, or health organizations; implement an evidence-based approach integrating research findings with practical implementation that aligns with the needs and desired outcomes for the intended audience; and teach the benefits associated with self-regulation, success sequencing for poverty prevention, healthy relationships, goal setting, and resisting sexual coercion, dating violence, and other youth risk behaviors such as underage drinking or illicit drug use without normalizing teen sexual activity. The plans should address the social, psychological, and health gains to be realized by refraining from non-marital sexual activity and engaging in healthy relationships. The SRAE legislation requires unambiguous and primary emphasis and context for each of the topics to be addressed in program implementation. Additionally, there is a requirement that messages to youth normalize the optimal health behavior of avoiding non-marital sexual activity. LEARN MORE

ACF Basic Center Program
(Application Deadline: July 3, 2020)
The Runaway and Homeless Youth Program's Basic Center Program (BCP) provides temporary shelter and counseling services to youth who have left home without permission of their parents or guardians, have been forced to leave home, or other homeless youth who might otherwise end up in the law enforcement or in the child welfare, mental health, or juvenile justice systems. BCPs work to establish or strengthen community-based programs that meet the immediate needs of runaway and homeless youth and their families. BCPs provide youth under 18 years of age with emergency shelter, food, clothing, counseling and referrals for health care. BCPs can provide up to 21 days of shelter for youth and seeks to reunite young people with their families, whenever possible, or to locate appropriate alternative placements.   Additional services may include: street-based services; home-based services for families with youth at risk of separation from the family; drug abuse education and prevention services; and at the request of runaway and homeless youth, testing for sexually transmitted diseases. **LEARN MORE**

CDC Pregnancy Risk Assessment Monitoring System (PRAMS)
(Application Deadline: July 15, 2020)
This NOFO solicits applications to: 1) implement standardized surveillance of postpartum women with a recent live birth or stillbirth on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy; 2) implement surveillance on emerging issues related to maternal and child health that arise during the data collection cycle including post-disaster or emergency surveillance; and 3) ensure collection of timely, high quality data for ongoing monitoring of maternal and infant health to inform programs, research, and system changes. The activities in the NOFO will be conducted under three separate Components of funding: Component A: Core Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy, including emerging issues, among women with a recent live birth in up to 53 vital records jurisdictions. Component B: Point-in-time Tribal Surveillance - To implement a point-in-time (one time, one birth year) surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women with a recent live birth in up to 2 federally recognized American Indian Tribes, Alaska Native Villages, or Urban Indian Organizations (UIOs) with at least 1,000 live births annually or tribal organizations that support American Indian Tribes, Alaska Native Villages or Urban Indian Organizations with a service area that covers at least 1,000 live births annually. Component C: Stillbirth Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women who recently experienced a stillbirth in up to 2 vital records jurisdictions. **LEARN MORE**

HRSA Rural Communities Opioid Response Program – Neonatal Abstinence Syndrome (RCORP-NAS)
(Application Deadline: July 20, 2020)
The purpose of the RCORPNAS project is to advance RCORP's overall goal and reduce the incidence and impact of Neonatal Abstinence Syndrome (NAS) in rural communities by improving systems of care, family supports, and social determinants of health. **LEARN MORE**

ACF Human Trafficking Youth Prevention Education (HTYPE) Demonstration Grants
(Application Deadline: July 31, 2020)

The goal of the HTYPE Demonstration Program is to fund local educational agencies (LEA) to develop and implement programs to prevent human trafficking victimization through the provision of skills-based human trafficking training and education for school staff and students as specified in the Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act of 2018.   Under the HTYPE Demonstration Program, the following activities are required: 1) provide human trafficking education that equips educators and other staff to identify and respond to signs that students are at high risk of or are currently experiencing human trafficking; 2) deliver student human trafficking prevention education that is designed to build student resilience to labor trafficking and sex trafficking by strengthening student knowledge and skills; 3) train qualified individuals to implement and replicate project activities throughout the school district or identified target area(s); and 4) establish and implement a Human Trafficking School Safety Protocol (HTSSP).

The LEA must work in partnership with a nonprofit or nongovernmental organization (NGO) to provide all aspects of human trafficking prevention education to students and school staff. The LEA will consult with local law enforcement in the development of the HTSSP, specifically to address the safety, security, and well-being of staff and students and to define the proper and effective role of school staff in responding to potential and confirmed cases of human trafficking, including notifying and engaging parents, guardians, or caregivers, as appropriate. **LEARN MORE**

OASH Pregnancy Prevention Research Grants
(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will conduct research that would make significant contributions to the mission of the Office of Population Affairs and to the pregnancy prevention and family planning fields. Under this announcement, research and evaluation projects that encourage healthy behavior choices to delay the onset of sexual activity, reduce number of sexual partners, and if sexually active, encourage the use of preventative measures for STIs and pregnancy will be considered. These grants are for research that can be conducted within 1-2 years, such as secondary data analyses using existing program and evaluation data or administrative data. Potential areas of investigation include, but are not limited to: 1) Identify factors that improve the efficiency, effectiveness, and quality of pregnancy prevention programs for adolescents or young adults, or reduce disparities, by age, gender, race/ethnicity, or setting; 2) Identify and/or validate core program components or "active ingredients" essential for programs and practices to produce the desired outcomes; 3) Identify specific characteristics of program models, participants, or program implementation associated with program impacts; and 4) Apply innovative methods or techniques from other disciplines that are novel to pregnancy prevention research such as network analysis, matching and distillation techniques, system dynamics modeling or geographic information systems, to address questions beyond the general effectiveness of pregnancy prevention programs. LEARN MORE

OASH Research to Practice Center Grants for Adolescent Health Promotion in Order to Prevent Teenage Pregnancy
(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will synthesize and translate existing research into practice for health promotion activities that will lead to adoption of healthy behaviors and ultimately help to reduce teen pregnancy. Subject to availability of funds, OPA will fund no more than one grant per priority area. Organizations may apply for more than one priority area; 3 however, each application may only address a single priority area. Funded organizations will be referred to from here on as "centers". The national centers will be expected to coordinate and collaborate with each other, OPA, and potentially other OPA grantees conducting research in related topic areas. OPA expects Centers to evaluate or assess best practices, approaches or strategies in a priority protective area and make that information easily accessible to health providers, caregivers and others working with youth to prevent teen pregnancy. OPA expects Centers to address important and relevant topic areas related to adolescent health promotion, including addressing how the reduction of other risky behaviors (such as substance abuse) would aid in pregnancy prevention. Priority areas include but are not limited to: 1) engaging parents and caregivers; 2) environments supportive of healthy behaviors; 3) fostering positive connections to schools, neighborhoods and communities; 4) · active and meaningful youth engagement; or 5) working with youth serving professionals in the systems that serve the most vulnerable youth populations. OPA expects the Centers to have a high caliber of scientific and technical competency, be forward-looking, provide strong leadership, and collaborate with stakeholders and community partners including state and local health agencies and non-profit, community (including youth and parents) and non-governmental organizations in the development and delivery of research to practice products. NIH Time-Sensitive Obesity Policy and Program Evaluation (R01)
(Application Deadline: July 10, 2020; August 11, 2020)

This FOA establishes an accelerated review/award process to support time-sensitive research to evaluate a new policy or program that is likely to influence obesity related behaviors (e.g., dietary intake, physical activity, or sedentary behavior) and/or weight outcomes in an effort to prevent or reduce obesity. This FOA is intended to support research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications submitted to this FOA must demonstrate that the evaluation of an obesity related policy and / or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications submitted to this time-sensitive FOA are not eligible for re-submission. It is intended that eligible applications selected for funding will be awarded within 4 months of the application due date. However, administrative requirements and other unforeseen circumstances may delay issuance dates beyond that timeline. LEARN MORE

HUD Cooperative Research in Housing Technologies
(Application Deadline: June 29, 2020)

The U.S. Department of Housing and Urban Development (HUD) is interested in receiving applications for cooperative agreements for pre-competitive research in homebuilding innovations. Under this announcement, pre-competitive research is an effort that is sufficiently in its early stages such that competitors are working together collaboratively. Applications should not include trade secrets or other confidential information. However, the applicant should describe the technology in sufficient detail so that HUD can decide on the strength of the application. HUD is interested in developing and deploying knowledge that provides the homebuilding industry with new, innovative construction products or practices that may lead to more affordable, energy efficient, resilient (i.e., durable, disaster resistant, adaptable for future requirements, and maintainable), and healthier housing while at the same time reducing the cost of construction. Specifically, applications are encouraged to focus on aspects of residential construction related to factory-built housing and components and/or resilience. LEARN MORE

HUD Estimating the Prevalence and Probability of Homeless Youth
(Application Deadline: July 1, 2020)

The U.S. Department of Housing and Urban Development (HUD) issues this Notice of Funding Availability (NOFA) to invite applications from eligible applicants to meet the requirements for youth research activities authorized under Section 345 of the Runaway and Homeless Youth Act, which calls for "using the best quantitative and qualitative social science research methods available to produce estimates of the incidence and prevalence of runaway and homeless individuals who are not less than 13 years of age but are less than 26 years of age; and that includes with such estimate an assessment of the characteristics of such individuals." In 2019, HUD published the Voices of Youth Count (VoYC) Study that met the basic requirements of the Act. Using a broad definition of youth homelessness, the VoYC Study offered a nationally representative estimate of homeless youth using Gallup phone-based household surveys, as well as point-in-time estimates of homeless youth based on street and shelter counts. Patterns and subpopulations of homeless youth were identified using qualitative in-depth interviews. To date, however, methods for estimating and predicting the number of homeless youth by linking administrative data from multiple sources have not been fully developed. Section 345 of the Runaway and Homeless Youth Act provides for "such other information as the Secretary determines, in consultation with States, units of local government, and national nongovernmental organizations concerned with homelessness, may be useful." HUD therefore seeks proposals for other information and methods that supplement the findings from the VoYC Study. Such additional information that can be used to produce estimates of the incidence and prevalence of homeless youth may include the integration of administrative data from local, state, and federal institutions that engage at-risk or homeless youth, such as child welfare agencies, juvenile justice and correctional systems, schools, and hospitals. LEARN MORE

HUD Fair Housing Initiatives Program - Education and Outreach Initiative (COVID-19)
(Application Deadline: July 8, 2020)

The purpose of this Notice is to seek applications from eligible entities that will create and disseminate fair housing education and outreach materials in COVID-19 affected areas. During this national emergency, HUD wants to remind housing providers and the public of important federal fair housing laws that protect persons from discrimination, including harassment and

intimidation in housing and related services on the basis of race, color, religion, national origin, sex, familial status and disability. Persons with disabilities, including those who are older and have underlying medical conditions, are vulnerable and at high risk for a severe, life-threatening response to COVID-19. HUD recognizes that these persons may face unique fair housing and civil rights issues in their fair housing related services. Housing providers are required to make reasonable accommodations that may be necessary to deliver housing and services to persons with disabilities affecting major life activities. In addition, HUD wants to prevent discrimination and harassment against people who, because of racial profiling, are perceived to be associated with this disease. Historically, the number of fair housing complaints increases in the aftermath of a disaster or emergency. The provision of widespread, highly visible outreach and education activities regarding the Fair Housing Act requirements is essential during this critical time to control the number of Fair Housing Act violations. HUD Supplemental Comprehensive Housing Counseling Program
(Application Deadline: July 8, 2020)
The purpose of HUD's Housing Counseling Grant Program is to provide funds to HUD-approved housing counseling agencies that provide counseling and advice to tenants and homeowners, with respect to property maintenance, financial management and literacy, and other matters as may be appropriate to assist program clients in improving their housing conditions, meeting their financial needs, and fulfilling the responsibilities of tenancy or homeownership. This NOFA plays an integral role in helping individuals and families obtain housing and stay in their homes through responsible homeownership or affordable rental housing. Housing counseling agencies are an important safeguard in the prevention of housing scams and discrimination and serve as an important gateway to local, state, federal and private housing assistance and resources. HUD Examining Long-term Outcomes Following Exit from HUD-Assisted Housing
(Application Deadline: July 14, 2020)
This solicitation seeks to examine long-term outcomes of households who have exited HUD-assisted housing (all programs), also referred to as "leavers." HUD's purpose is to learn how housing assistance can better support good outcomes, such as economic opportunity and self-sufficiency of assisted households, enabling households to exit HUD assistance and thus increase the availability of scarce housing resources for other families in need. HUD is soliciting proposals to explore this topic by taking advantage of HUD administrative or tenant data linked with other longitudinal data sources on households or individuals. The results of such data linkages may also inform and contribute to HUD's continuing efforts to understand trends in "positive" and "negative" exits from its programs. LEARN MORE

HUD Impact of RAD on Children in HUD Assisted Households
(Application Deadline: July 30, 2020)
The goal of this cooperative agreement is to support research project(s) that will advance scientific knowledge and produce policy-relevant evidence on the implementation of the RAD program and its effect on children's well-being. The applicant should be aware of the major research goals for other studies of RAD and propose a project that enhances, replicates, or complements the larger RAD evaluations or other studies such as the one in Fresno, California. HUD Alternative Methods For Calculating Fair Market Rents (FMRs) in Rental Markets With Rapidly Rising Rents
(Application Deadline: August 4, 2020)
Through this NOFA, HUD is announcing the availability of $500,000 for a study of alternative methods for calculating Fair Market Rents (FMRs) in rental markets with rapidly rising rents. HUD is soliciting proposals for research that will accomplish the following: 1) Define "rental markets with rapidly rising rents"; and 2) Identify alternative calculations to generate FMRs that more closely track market conditions in rapidly rising rental markets than current methods. This may include, but is not limited to, alternative sources of gross rent data and/or alternative calculation methodologies using existing data. The primary objective of this project is to identify better methods for calculating FMRs for markets in disequilibrium where rents are rising rapidly and FMRs calculated using current methods coupled with current payment standard authority are insufficient to enable Housing Choice Voucher families to find and lease suitable units within the search time allowed. In addition to the primary objective, this research should consider whether the alternative calculation methods should be applied to the calculation of Fair Market Rents in all types of housing markets. **LEARN MORE**

DoC Small Cities Community Development Block Grant (CDBG): Downtown Redevelopment Fund
(Application Deadline: Rolling)
The purpose of this program is to return vacant or underutilized commercial buildings to economic use for new or expanding businesses to prevent or eliminate slums or blight. Local government applicants will apply in conjunction with private, for-profit businesses that propose to renovate one or more vacant and/or underutilized downtown buildings that have been vacant for at least 30 consecutive days for commercial or mixed-use development. Successful local government applicants will provide funding to businesses in the form of a forgiven loan. **LEARN MORE**

ACF Domestic Victims of Human Trafficking Services and Outreach (DVHT-SO) Program (Application Deadline: June 24, 2020)
The goal of the DVHT-SO Program is to fund organizations that will build, expand, and sustain organizational and local capacity to deliver services to domestic victims of severe forms of human trafficking as defined by the Trafficking Victims Protection Act of 2000 through the provision of direct services, assistance, and referrals. Under the DVHT-SO Program, the following activities are required: 1) provision of comprehensive case management to domestic victims of human trafficking; 2) outreach efforts to increase identification of victims of sex and labor trafficking; and 3) training to service providers and community partners. The DVHT-SO Program is informed by a whole-family approach that focuses equally and intentionally on services and opportunities for victims and their immediate family members living within their households. OTIP is encouraging the establishment of community partnerships, meaningful engagement of survivors, and the hiring of qualified professionals that reflect the communities being served in all project implementation strategies under the DVHT- SO Program. Under DVHT-SO there is a 12-month project implementation period for the funding recipient to facilitate optional partnerships, on-board new staff, develop victim service protocol, and develop a sustainability plan. Under the DVHT-SO Program, there is a statutorily mandated 25 percent match (cash or in-kind) requirement. **LEARN MORE**

ACYF Street Outreach Program (Application Deadline: June 29, 2020)
The Runaway and Homeless Youth (RHY) Program's Street Outreach Program (SOP) provides street-based services to runaway, homeless, and street youth who have been subjected to or are at risk of being subjected to sexual abuse, prostitution, sexual exploitation, and severe forms of human trafficking in persons. These services, targeted in areas where street youth congregate, are designed to assist such youth in making healthy choices and providing them access to shelter as well as basic needs, including food, hygiene packages and information on a range of available services. **LEARN MORE**

ACF Community Economic Development Projects (Application Deadline: July 3, 2020)
The Administration for Children and Families (ACF), Office of Community Services (OCS) will award approximately $13.6 million in Community Economic Development (CED) discretionary grant funds to Community Development Corporations (CDC) for well-planned, financially viable, and innovative projects to enhance job creation and business development for individuals with low-income. CED grants will be made as part of a broader strategy to address objectives such as decreasing dependency on federal programs, chronic unemployment, and community deterioration in urban and rural areas. CED projects are expected to actively recruit individuals with low-income to fill the positions created by CED-funded development activities, to assist those individuals to successfully hold those jobs and to ensure that the businesses and jobs created remain viable for at least one year after the end of the grant period. CED-funded projects can be non-construction or construction projects, however, short-term construction jobs

associated with preparing for business startup or expansion are not counted when determining the number of jobs created under the CED program as they are designed to be temporary in nature. OCS is encouraging applications from CDCs to target rural areas and underserved areas in States without current projects. Furthermore, OCS is encouraging projects that align with Opportunity Zones, Rural Communities with high rates of poverty, unemployment, and substance use disorder and rural communities with persistent poverty as identified by US Department of Agriculture's Economic Research Service. **LEARN MORE**

HRSA Rural Communities Opioid Response Program – Planning
(Application Deadline: July 13, 2020)

RCORP is a multi-year HRSA initiative aimed at reducing morbidity and mortality resulting from substance use disorder (SUD), including opioid use disorder (OUD), in high risk rural communities. This funding opportunity, RCORP-Planning, will advance RCORP's overall goal by strengthening and expanding the capacity of rural communities to provide SUD/OUD prevention, treatment, and recovery services. **LEARN MORE**

HRSA Rural Communities Opioid Response Program – Neonatal Abstinence Syndrome (RCORP-NAS)
(Application Deadline: July 20, 2020)

The purpose of the RCORPNAS project is to advance RCORP's overall goal and reduce the incidence and impact of Neonatal Abstinence Syndrome (NAS) in rural communities by improving systems of care, family supports, and social determinants of health. **LEARN MORE**

ACF Human Trafficking Youth Prevention Education (HTYPE) Demonstration Grants
(Application Deadline: July 31, 2020)

The goal of the HTYPE Demonstration Program is to fund local educational agencies (LEA) to develop and implement programs to prevent human trafficking victimization through the provision of skills-based human trafficking training and education for school staff and students as specified in the Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act of 2018.   Under the HTYPE Demonstration Program, the following activities are required: 1) provide human trafficking education that equips educators and other staff to identify and respond to signs that students are at high risk of or are currently experiencing human trafficking; 2) deliver student human trafficking prevention education that is designed to build student resilience to labor trafficking and sex trafficking by strengthening student knowledge and skills; 3) train qualified individuals to implement and replicate project activities throughout the school district or identified target area(s); and 4) establish and implement a Human Trafficking School Safety Protocol (HTSSP).

The LEA must work in partnership with a nonprofit or nongovernmental organization (NGO) to provide all aspects of human trafficking prevention education to students and school staff. The LEA will consult with local law enforcement in the development of the HTSSP, specifically to address the safety, security, and well-being of staff and students and to define the proper and effective role of school staff in responding to potential and confirmed cases of human trafficking, including notifying and engaging parents, guardians, or caregivers, as appropriate. **LEARN MORE**

Andrew W. Mellon Foundation: Community-Based Archives Grants
(Application Deadline: July 1, 2020)

The Andrew W. Mellon Foundation invites community-based archives in the United States and its territories to submit applications for its 2020 Call for Proposals to Community-Based Archives. These grants will provide support to archives in one or more of the following areas of need: 1) Operational costs, including staff, space, and utilities; 2) Collections care, including the acquisition of new materials, physical and digital storage fees, and access and preservation efforts; and 3) Programming activities, including events, exhibitions, and publications. This funding opportunity is overseen by the Foundation's Scholarly Communications program. **LEARN MORE**

RWJF Identifying the Next Phase of Leadership and Management for the RWJF Culture of Health Prize
(Application Deadline: July 31, 2020)

This request seeks an entity to lead the next two-year phase of the leadership and management of the RWJF Culture of Health Prize, which will include 2022–2023 cohorts of winners and initial planning for the 2024 cohort. This call for proposals provides background on the RWJF Culture of Health Prize and outlines responsibilities for an organization selected to take on the next phase of leadership and management. **LEARN MORE**

Roger I. and Ruth B. MacFarlane Foundation: Category 2 Grants
(LOI Deadline: Rolling)

The Roger I. and Ruth B. MacFarlane Foundation supports organizations that strive to increase the opportunities and improve the quality of life of individuals and communities. The Foundation acts as a catalyst for organizations and their programs to enhance their impact and expand their reach. **LEARN MORE**

Hearst Foundations Grants
(Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. **LEARN MORE**

RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health
(Application Deadline: Rolling)

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. **LEARN MORE**

Golden LEAF Open Grants Program
(Application Deadline: Rolling)

The Golden LEAF Foundation is committed to using the funds entrusted to it for projects that show the most potential for strengthening North Carolina's long-term economy, especially in tobacco-dependent, economically distressed, and/or rural communities. Golden LEAF makes grants for projects that the Foundation's Board of Directors believes have extraordinary merit and address the Foundation's purposes as set forth in its Charter. Grants in this program are not expected to exceed $200,000. Since requests are likely to far exceed funds available, the Foundation will be looking for projects in the following focus areas of Economic Investment and Job Creation, Workforce Preparedness and Education, Agriculture, and Community Vitality.

Forecasted Federal Grants

NCDHHS Local Justice Systems to Combat Opioid Epidemic
(Estimated Application Deadline: TBD)

The Bureau of Justice Assistance's Comprehensive Opioid Abuse Program (COAP) Statewide Implementation, Enhancement and Evaluation Initiatives has awarded the NC Department of Health and Human Services (NCDHHS) a three-year, $6.5 million grant.
As part of this federal grant, NCDHHS will release a Request For Applications (RFA) to competitively award funds to applicant sites for: 1) Pre-arrest or pre-conviction diversion programs, such as Law Enforcement Assisted Diversion (LEAD Programs) and Police Assisted Addiction and Recovery Initiatives (PAARI), that divert low-level offenders to appropriate treatment options; 2) Comprehensive jail-based medication assisted treatment programs that provide medication assisted treatment (MAT) to individuals during incarceration and connect them to continued treatment upon release. Comprehensive MAT programs – which include providing buprenorphine, methadone or both – along with group and/or individual therapy services are the gold standard for opioid use disorder treatment; and 3) Overdose prevention education and naloxone distribution programs to engage people during incarceration and provide harm reduction education on how to prevent overdoses, respond to an overdose, and access community resources.
Sites may apply to implement a program that includes one, two or all three of these strategies.

OASH Community-wide Approaches for Healthy Children
(Estimated Application Deadline: TBD)

The Office of Minority Health (OMH) is offering a funding opportunity to assess the effectiveness of interventions targeted community-wide in order to prevent adverse childhood experiences (ACEs) in racial/ethnic minority and disadvantaged populations. Funding will be used to implement and evaluate prevention approaches that expand or improve upon evidence-based interventions or promising research evidence. OMH will fund awards annually for a project period of up to 2 years. A limited competition among grant recipients making satisfactory progress will be considered for a third year of funding. This funding opportunity builds upon lessons learned from other interventions targeted specifically toward individual youth who have experienced trauma and aligns with an enhanced Departmental focus on primary prevention of ACEs. ACL Disability and Rehabilitation Research Projects (DRRP): Assistive Technology to Promote Independence and Community Living (Development)
(Estimated Application Deadline: April 10, 2020)

Under this particular DRRP priority, applicants must propose a development project that is aimed at improving technology solutions to improve independence and community living outcomes of people with disabilities – with a particular emphasis on seniors with disabilities. NIDILRR plans to make four DRRP awards under this grant competition. For this grant competition we are inviting both research applications and development applications. Please note that this forecast is for a Funding Opportunity Announcement for DRRP development projects toward technology solutions to promote independence and community living outcomes of people with disabilities – with a particular emphasis on seniors with disabilities. NIDILRR's four awards under this grant competition may include research projects, development projects, or both, depending on the ranking of applications provided by the peer review panel. CDC Centers of Excellence to Promote a Healthier Workforce (U19)
(Estimated Application Deadline: October 30, 2020)
The purpose of this NOFO is to support Centers of Excellence for TWH to develop and conduct multidisciplinary research, intervention, outreach and education, and evaluation activities that will advance the overall safety, health, and well-being of the diverse population of workers in our nation. Center structure should take advantage of diverse scientific resources and focus on local, regional, and/or national worker safety and health issues. Centers should place emphasis on the creation and implementation of evidence-based solutions that address evolving challenges and opportunities related to worker safety, health, and well-being. Collaborations with other academic institutions, nonprofit organizations, and other occupational safety and health focused groups are expected. Applicants must concisely describe the occupational health burden within their service area and directly link research and outreach activities to help alleviate the burden. Applicants should also clearly articulate the anticipated impacts of the proposed work, both during the project period and beyond. LEARN MORE
