Federal

CDC Improving Clinical and Public Health Outcomes through National Partnerships to Prevent and Control Emerging and Re-Emerging Infectious Disease Threats (Application Deadline: July 31, 2020)

The Centers for Disease Control and Prevention provides support for domestic and global infrastructure to prevent and control infectious diseases that threaten the public's health. The proposed cooperative agreement would fund organizations that represent professionals at the front line of preventing and controlling the spread of emerging and re-emerging infectious disease threats such as COVID-19, including clinicians, other healthcare professionals, healthcare systems, and other organizations and institutions responsible for infectious disease prevention and control in the United States. This NOFO is intended to establish a roster of organizations that would be pre-identified and pre-approved for rapid funding by CDC to address emerging and re-emerging public health threats. This NOFO will establish an Approved-But-Unfunded (ABU) list of grantees. This ABU list will be utilized by CDC to effectively respond to, manage, and address the identified public health threat, in partnership with national and regional organizations. Applications seeking to conduct activities outside the scope of the program activities will be deemed non-responsive and will not be considered. Under the proposed umbrella cooperative agreement, CDC would provide funding, as available, in support of a set of strategies that target prevention and control of emerging and re-emerging infectious diseases, including COVID-19. Collaborative activities would extend from the following program strategies: 1. DISSEMINATE AND ADOPT – Support CDC in the dissemination and adoption or implementation of guidance, clinical guidelines, and best practices for the prevention and control of emerging and re-emerging infectious diseases. 2. INFORM AND ADAPT – Inform and support CDC in the development and adaptation of guidance, tools, and best practices, including tailoring existing guidance to the needs of specific patient populations, clinical specialties, and workplace industry sectors. 3. TARGET AND TRAIN – Engage frontline personnel and lead training in CDC best practices for the broader workforce supporting the prevention and control of emerging and re-emerging infectious diseases. Target guidance and tools to better reach higher risk communities and reduce disease spread in targeted workplaces. 4. INTEGRATE AND EXTEND – Develop integrated and cross-sub-specialty networks for information sharing, problem-solving, and sharing of promising practices, including the development of rapid or living learning networks. Extend networks to reach vulnerable or hard-to-reach populations. 5. EVALUATE AND IMPROVE – Evaluate the impact and effectiveness of strategies for improved infection prevention and control practices. Implement continuous improvement by assessing and monitoring performance metrics related to prevention programs and program strategy. [**LEARN MORE**](#)

**NIH Digital Healthcare Interventions to Address the Secondary Health Effects Related to Social, Behavioral, and Economic Impact of COVID-19 (R01)****(Application Deadline: August 20, 2020)**

This FOA aims to support research to strengthen the healthcare response to Coronavirus Disease 2019 (COVID-19) caused by the Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and future public health emergencies, including pandemics. While research related to the direct clinical effects of COVID-19 are supported by other funding opportunities, the purpose of this funding opportunity is to focus on the role and impact of digital health interventions [e.g., mobile health (mhealth), telemedicine and telehealth, health information technology (IT), and wearable devices] to address access, reach, delivery, effectiveness, scalability and sustainability of health assessments and interventions for secondary effects (e.g., behavioral health or self-management of chronic conditions) that are utilized during and following the pandemic, particularly in populations who experience health disparities and vulnerable populations. [LEARN MORE](#)

NIH Community Interventions to Address the Consequences of the COVID-19 Pandemic among Health Disparity and Vulnerable Populations (R01)**(Application Deadline: August 28, 2020; December 1, 2020)**

This Funding Opportunity Announcement (FOA) encourages applications to implement and evaluate community interventions testing 1) the impacts of mitigation strategies to prevent COVID-19 transmission in NIH-designated health disparity populations and other vulnerable groups; and 2) already implemented, new, or adapted interventions to address the adverse psychosocial, behavioral, and socioeconomic consequences of the pandemic on the health of these groups. [LEARN MORE](#)

NSF Rapid Response Research (RAPID)**(Application Deadline: Rolling)**

In light of the emergence and spread of COVID-19 in the United States and abroad, the NSF is accepting proposals to conduct non-medical, non-clinical-care research that can be used immediately to explore how to model and understand the spread of COVID-19, to inform and educate about the science of virus transmission and prevention, and to encourage the development of processes and actions to address this global challenge. NSF encourages the research community to respond to this challenge through existing funding opportunities. In addition, we invite researchers to use the Rapid Response Research (RAPID) funding mechanism, which allows NSF to receive and review proposals having a severe urgency with regard to availability of or access to data, facilities or specialized equipment as well as quick-response research on natural or anthropogenic disasters and similar unanticipated events. Requests for RAPID proposals may be for up to \$200K and up to one year in duration. Well-justified proposals that exceed these limits may be entertained. [LEARN MORE](#)

NIH Emergency Awards: Rapid Investigation of Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19) (R01 & R21)
(Application Deadlines: Rolling)

The purpose of these FOAs is to provide an expedited funding mechanism for research on Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) and Coronavirus Disease 2019 (COVID-19). NIAID is issuing this FOA in response to the declared public health emergency issued by the Secretary, HHS, for 2019 Novel Coronavirus (COVID-19). Foundation

RWJF Systems for Action: Supplemental Research on COVID-19 Response and Recovery
(LOI Deadline: July 20, 2020)
(Application Deadline: August 5, 2020)

The need to identify successful system alignment strategies has become increasingly urgent in the wake of the SARS-CoV-2 virus pandemic that causes COVID-19. This pandemic places people with unmet health and social needs at heightened risk of infection and complications, while propagating unmet needs through job losses, school and business closures, occupational risks, and social distancing policies. This call for proposals (CFP) will provide supplemental research funding to teams that are already engaged in the study of a promising system alignment mechanism, with the objective of learning how this mechanism performs in addressing health and social needs during the COVID-19 pandemic. Eligible teams must have an active or recently completed research study (within 12 months of application submission) that can be extended through the use of supplemental research funding. This CFP is appropriate for studying an existing system alignment mechanism implemented prior to the arrival of the COVID-19 pandemic, and about which some pre-COVID evidence has already been created by the applicant. Studies funded through the S4A program must test a specific system alignment mechanism that engages all three of the sectors referenced in this call—medical care, public health, and social services. [LEARN MORE](#)

Kate B. Reynolds Charitable Trust: Addressing the COVID-19 Pandemic
(Call-by Date: July 21, 2020)
(Application Deadline: August 4, 2020)

Healthy Places NC communities, like many areas of the state, are struggling to contain the spread of COVID-19 and the resulting social and economic impacts of the virus. The problems are compounded by a historic underinvestment in public health infrastructure. Rural counties have fewer resources to combat the coronavirus. Several HPNC communities are suffering disproportionate impacts or have especially vulnerable populations that are at greater risk of contracting the virus. This is a funding opportunity to support public health departments in Healthy Places NC counties to build capacity and conduct communications and advocacy efforts to address the spread of COVID-19 and assist areas with low-incomes. [LEARN MORE](#)

Call for Code Global Challenge **(Application Deadline: July 31, 2020)**

COVID-19, which is caused by the novel coronavirus, has revealed the limits of the systems we take for granted in a very short period of time. Whether it's the massive increase in demand for information during a time of crisis, educating children when schools are closed, or helping communities best distribute limited resources, technology has a pivotal role to play. Through Call for Code, you can see your idea deployed by a global partner ecosystem. [LEARN MORE](#)

FORE: Strengthening Access to Care for Opioid Use Disorder Patients During the COVID-19 National Public Health Emergency: Recovery Support Services **(Application Deadline: July 31, 2020)**

FORE will initiate rapid response grant support for specific projects that aim to strengthen access to evidence-based OUD recovery services for vulnerable and high-risk populations during the COVID-19 national emergency. This RFP targets projects which can provide recovery support services in the context of social distancing and infection control, including promotion of remote, digital, and virtual forms of recovery support to reach vulnerable and broader populations, such as (but not limited to): 1) Rural communities; 2) Urban and minority communities; 3) Children and adolescents; 4) Pregnant and parenting women; 5) Veterans; 6) Justice-involved individuals; 7) Homeless population; 8) LGBT community; and 9) Native American and tribal communities. Areas of special interest include strategies that link individuals to recovery supports at transition points, such as release from jail or discharge from an inpatient or residential program. The impact of the pandemic is likely to be felt for a significant amount of time, especially among those with OUD and those working to maintain connection to and treatment for them. It is important that innovative solutions that emerge from this pandemic are identified and spread to produce long-lasting improvements. Competitive applications will demonstrate clear, immediate, short-term needs, as well as the potential for lessons learned to inform long-term, broader impact and scalability. Applicants must also demonstrate a commitment to and support for the proposed project from their organizational leadership. [LEARN MORE](#)

WITH Foundation Grants **(Application Deadline: September 3, 2020)**

The WITH Foundation (WITH) and the American Academy of Developmental Medicine and Dentistry (AADMD) are partnering in an effort to support projects that address the challenges Primary Care Providers experience in serving adults with intellectual and developmental disabilities during pandemic and/or emergency situations. The geographic areas of focus are self-selected by the proposing organization/collaborative partners but must be within the United States. As a result of this RFP, it is anticipated that up to four (4) grant awards will be made. This is an invitation for collaborative proposals that focus on projects that address the challenges Primary Care Providers experience in serving adults with intellectual and developmental disabilities during pandemic and/or emergency situations. Proposals should use one of the following approaches: 1) Educational materials: Develop additional educational resources related to pandemic and/or emergency response for Primary Care Providers who serve adults with I/DD; 2) Implementation: Supports implementation of service delivery models, i.e. projects that support community-based PCPs in providing care to adults with I/DD during pandemic and/

or emergency situations; 3) Research: Supports regional or national research related to Primary Care Providers who serve adults with I/DD role during pandemic and emergency situations. A secondary goal of this RFP is to foster new partnerships or significantly enhance existing partnerships between disability organizations, self-advocates, community organizations, and healthcare providers. [LEARN MORE](#)

Triangle North Healthcare Foundation COVID-19 Relief Fund (Application Deadline: September 15, 2020)

Triangle North Healthcare Foundation has announced the launch of a COVID-19 Pandemic Relief Fund, available to nonprofit, local government, and educational organizations, serving the counties of Franklin, Granville, Vance and Warren. The Foundation is stepping beyond its normal funding priorities for this special COVID-19 grant cycle and relief projects will not be limited to only health-related programming. [LEARN MORE](#)

Cigna Healthier Kids for Our Future: Mental Health Grant (Application Deadline: September 30, 2020)

In 2019, Cigna launched Healthier Kids For Our Future, a five-year, \$25 million initiative to improve the health and well-being of children around the world—with an initial focus on food insecurity—in recognition that regular access to nutritious and sufficient food is the starting point for a healthier, more productive life. In 2020, we are expanding the initiative to include good health and well-being with a focus on mental health. Our goal is to supplement existing mental health programming, and help close gaps both within and outside the school environment to address loneliness, anxiety, depression, and suicide prevention. We will fund programs that foster collaboration between stakeholders including school administrators and teachers, clinicians, and local and national nonprofits to address mental health and emotional well-being challenges for children. Partners are encouraged to leverage one or more of the follow evidence-based programs: 1) Trauma Informed Practices (TIPS), 2) Social Emotional Learning (SEL), and 3) Positive Behavioral Interventions and Supports (PBIS). [LEARN MORE](#)

Open Road Alliance (Application Deadline: Rolling)

The effect of the COVID-19 pandemic on the impact sector has reached natural disaster proportions in its scope and scale, which means that the global need for our ‘emergency’ capital vastly outstrips our available resources. Given this reality, we have decided to use our limited resources to best serve the sector under the following circumstances: 1) Charitable Grants: Will only be offered to organizations responding directly to COVID-19. Awards can be up to \$100,000. 2) Loans: Open Road will be offering four loan products to organizations affected by COVID-19: i) Lost Event Revenue, ii) Accelerating Incoming Emergency Funds, iii) Co-investment to Support Social Enterprises, and iv) Deep Impact Loans. As always, all of our grant and loan products will be subject to Open Road’s traditional criteria: We only make a loan or grant to an organization that is 1) otherwise fully funded, then 2) hit an unexpected, external roadblock (i.e., COVID-19), where 3) Open Road’s loan can fully solve the problem at hand and 4) demonstrate the potential to create catalytic impact. In this time of exceptional need, we will be prioritizing impact. [LEARN MORE](#)

RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health **(Application Deadline: Rolling)**

Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. [LEARN MORE](#)

DataValidation COVID-19 Relief Fund **(Application Deadline: Rolling)**

DataValidation is announcing a \$1M relief fund in DataValidation services to support small and medium sized businesses impacted by the COVID-19 pandemic. During this time when we all have to #stayhome it is more important than ever to communicate effectively with customers online. E-mail is a crucial part of that communication effort for all businesses and ensuring your email data is of pristine quality is of utmost importance. However we understand that many businesses need to cut budgets in order to survive. That is why we are launching the DataValidation relief fund so that every business that is affected by this crisis can continue to communicate safely and effectively with their customers, knowing that their data is verified and ready to deliver. [LEARN MORE](#)

Hello Alice COVID-19 Business for All Emergency Grant **(Application Deadline: Rolling)**

Hello Alice is offering \$10,000 grants being distributed immediately to small business owners impacted by coronavirus, as part of our broader mission to ensure Business for All. In addition to funding, grant recipients will receive ongoing support from the Hello Alice community. [LEARN MORE](#)

NCOA COVID-19 Community Response Fund **(Application Deadline: Rolling)**

The NCOA COVID-19 Community Response Fund was created to raise and distribute funds to hard-hit community-based organizations that are directly serving older adults during the pandemic. The Fund will provide grants to qualified local nonprofits that are meeting the critical needs of older adults, allowing them to stay safe, secure, and healthy in their own homes during the crisis. [LEARN MORE](#)

Facebook for Business: Small Business Grants Program **(Application Deadline: Rolling)**

We know that your business may be experiencing disruptions resulting from the global outbreak of COVID-19. We've heard that a little financial support can go a long way, so we're offering \$100M in cash grants and ad credits to help during this challenging time. [LEARN MORE](#)

International Alliance for the Protection of Heritage in Conflict Areas (ALIPH): COVID-19 Emergency Grants

(Application Deadline: Rolling)

The COVID-19 pandemic is already having a significant impact on the protection of cultural heritage in conflict areas, through the postponement of planned work and the potential destabilization of the local economic and social fabric. Indeed, this health crisis may lead to deeper and lasting transformations in the cultural heritage sector. Consequently, to remain faithful to its values of solidarity and partnership, ALIPH has set up an extraordinary relief fund to support the heritage sector in the face of the COVID-19 pandemic. The proposed support mechanisms should meet urgent needs, while taking into account foreseeable long-term transitions. [LEARN MORE](#)

One Young World: COVID-19 Young Leaders Fund

(Application Deadline: Rolling)

One Young World, the global forum for young leaders, is establishing a fund for young leaders on the frontlines of the COVID-19 response. Around the world, One Young World Ambassadors are combatting the Coronavirus with the most innovative methods in the most challenging circumstances. By directing money to leaders on the front lines, we can insure that resources are being accessed by those who need them most. This global crisis demands a global response. One Young World will meet that challenge. [LEARN MORE](#)

Enterprise Community Partners: Emergency Action for Resident and Partner Stability Program

(Application Deadline: Rolling)

In response to Covid-19, our Emergency Action for Resident and Partner Stability program is moving swiftly to ensure that vulnerable, low-income families and individuals can remain in their homes and access support during this crisis. This new Enterprise program offers nonprofit community partners a broad range of support, including: 1) Emergency grants to allow organizations to stay afloat through payroll support and other assistance, as well as meet the immediate needs (such as rent, utilities and resident services) for families and individuals they serve; 2) Immediate and long-term guidance on resilience planning and financial strategies, as well as other technical assistance and training to help community-based nonprofits remain viable; and 3) Support to organizations seeking critical government relief funds and other interventions that can help address residents' and communities' needs. Through policy advocacy at the federal, state and local levels, Enterprise will continue working to restore and protect services and support for vulnerable communities and residents affected by the pandemic. [LEARN MORE](#)

AIDS United: Relief, Recovery and Resilience Fund

(Application Deadline: Rolling)

AIDS United has relaunched our Relief, Recovery and Resilience Fund (formerly the HIV Disaster Relief Fund), which was established to help meet the immediate and urgent needs of people living with and at risk for HIV in regions affected by urgent crises like earthquakes and hurricanes, and now the COVID-19 pandemic. The fund supports access to HIV care, housing, food and much more. Through the Relief, Recovery and Resilience Fund, AIDS United will provide grants of up to

\$15,000 to help organizations address the community needs related to the COVID-19 pandemic. Current available funds total \$150,000, but we are continuing to add resources from donations from both individual donors and our philanthropic partners. AIDS United is making funds available, through this request for applications, to assist in meeting the needs of organizations serving people living with and at risk for HIV and AIDS, and that are experiencing challenges meeting their community's needs because of the COVID-19 pandemic. Competitive organizations must have an HIV focus and utilize a social and racial justice framework. While all requests that fall within the eligibility parameters will be considered, the current funding priorities are to support organizations that provide support services for people living with HIV and those most affected by HIV or conduct advocacy on behalf of people living with HIV and those most affected by HIV. In addition, organizations must: 1) Be located in the South (Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee and Texas); -OR- 2) Serve people who use drugs; -OR- 3) Serve communities of color, especially Black communities. [LEARN MORE](#)

Grantmakers for Girls of Color (C4GC): Love is Healing COVID-19 Response Fund **(Application Deadline: Rolling)**

The G4GC Love is Healing COVID-19 Response Fund seeks to support coalitions and organizations that have been fighting historical inequities and the marginalization of girls of color well before COVID-19. Priority areas for funding include the following areas targeting girls and gender expansive youth of Black/African American, Latinx, Indigenous/Native, Middle Eastern, and/or Asian Pacific descent: preventative or responsive health strategies (mental, physical, emotional), interventions to support institutionalized girls and gender expansive youth and survivors of gender-based violence, economic and educational response strategies, and COVID-19-related advocacy and immediate mapping needs. Applications are accepted by invitation only, but interested organizations can submit an [interest form](#) for consideration. [LEARN MORE](#)

School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Grant **(Application Deadline: Rolling)**

SBHSN is accepting applications for School District, School-Based Telehealth program services. Telehealth is the distribution of health-related services and information via electronic information and telecommunication technologies. It allows long-distance patient and clinician contact, care, advice, reminders, education, intervention, monitoring, and remote admissions. The purpose of this grant is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally while confined to home learning mandates during the nation's current national emergency. Funding shall staff licensed mental health professionals to coordinate behavioral health services utilizing Telehealth technology and academic coordination activities with school administration in collaboration with school district designated program personnel. [LEARN MORE](#)

Social Science Research Council: Just Tech COVID-19 Rapid Response Grants **(Application Deadline: Rolling)**

The Social Science Research Council (SSRC), as part of its Just Tech program, seeks proposals from across the social sciences and related fields that address the risks, opportunities, and challenges posed by public health surveillance stemming from the Covid-19 pandemic. We

specifically encourage proposals that interrogate the role the public and private sectors may play in mitigating or exacerbating the health crisis, the effects of which are already unevenly distributed. [LEARN MORE](#)

Novartis US COVID-19 Community Response Fund (Application Deadline: Rolling)

In response to the COVID-19 pandemic, the Novartis US Foundation has established the US COVID-19 Community Response Fund to support local initiatives and communities in the US impacted by the outbreak. The fund will provide up to \$5 million over a one-year period for immediate response and recovery efforts related to the pandemic. [LEARN MORE](#)

Gaston County Virus Relief Fund (Application Deadline: Rolling)

The Gaston County Virus Relief Fund is a partnership between Gaston Community Foundation, United Way of Gaston County, City of Gastonia and with major support of the David Belk Cannon Foundation and the First Gaston Foundation. The fund's goal is to rapidly deploy resources to nonprofits impacted by the coronavirus outbreak and who the meet the eligibility criteria outlined below. The Fund complements government interventions and investments, and expands the local community's capacity to address the outbreak's social, health and economic impacts, with a special focus on populations disproportionately affected by the outbreak. Funding is restricted to organizations offering programming and services for Gaston County residents. [LEARN MORE](#)

Community Foundation of Henderson County: Henderson County COVID-19 Response Fund (Application Deadline: Rolling)

United Way of Henderson County and Community Foundation of Henderson County have created the Henderson County COVID-19 Response Fund that will rapidly deploy resources to community-based organizations at the frontlines of the coronavirus in Henderson County. [LEARN MORE](#)

Community Foundation of Burke County: COVID-19 Community Emergency Response Fund (Application Deadline: Rolling)

CFBC will make grants to tax-exempt, 501(c) (3) organizations that have programs benefiting the residents of Burke County. [LEARN MORE](#)

Davie County Community Foundation: Davie County COVID-19 Response Fund (Application Deadline: Rolling)

In response to the need for support, the Davie County COVID-19 Response Fund was established by a partnership between the Davie Community Foundation and the Mebane Charitable Foundation to help combat the immediate needs created by the coronavirus and support our non-profit organizations who find themselves on the front lines. Davie County non-profit organizations and agencies who provide a "safety net" for families in this very difficult economic situation may apply for grants from the Davie County COVID-19 Response Fund. Non-profit organizations and agencies providing services to meet immediate needs should submit this short application for grants of up to \$5,000. Grant funds may be used for organizational capacity or direct services to/for the children and families they serve in Davie County, NC. [LEARN MORE](#)

Healthcare and Behavioral/Mental Health Grants

Federal

HRSA Children's Hospitals Graduate Medical Education (CHGME) Payment Program

(Application Deadline: July 24, 2020)

(Supplemental Info Deadline: August 28, 2020)

The purpose of this program is to fund freestanding children's hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. [LEARN MORE](#)

OASH Pregnancy Prevention Research Grants

(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will conduct research that would make significant contributions to the mission of the Office of Population Affairs and to the pregnancy prevention and family planning fields. Under this announcement, research and evaluation projects that encourage healthy behavior choices to delay the onset of sexual activity, reduce number of sexual partners, and if sexually active, encourage the use of preventative measures for STIs and pregnancy will be considered. These grants are for research that can be conducted within 1-2 years, such as secondary data analyses using existing program and evaluation data or administrative data. Potential areas of investigation include, but are not limited to: 1) Identify factors that improve the efficiency, effectiveness, and quality of pregnancy prevention programs for adolescents or young adults, or reduce disparities, by age, gender, race/ethnicity, or setting; 2) Identify and/or validate core program components or "active ingredients" essential for programs and practices to produce the desired outcomes; 3) Identify specific characteristics of program models, participants, or program implementation associated with program impacts; and 4) Apply innovative methods or techniques from other disciplines that are novel to pregnancy prevention research such as network analysis, matching and distillation techniques, system dynamics modeling or geographic information systems, to address questions beyond the general effectiveness of pregnancy prevention programs. [LEARN MORE](#)

OASH Research to Practice Center Grants for Adolescent Health Promotion in Order to Prevent Teenage Pregnancy

(Application Deadline: August 4, 2020)

This notice solicits applications for projects that will synthesize and translate existing research into practice for health promotion activities that will lead to adoption of healthy behaviors and ultimately help to reduce teen pregnancy. Subject to availability of funds, OPA will fund no more than one grant per priority area. Organizations may apply for more than one priority area; however, each application may only address a single priority area. Funded organizations will be referred to from here on as "centers". The national centers will be expected to coordinate and collaborate with each other, OPA, and potentially other OPA grantees conducting research in related topic areas. OPA expects Centers to evaluate or assess best practices, approaches or strategies in a priority protective area and make that information easily accessible to health providers, caregivers and others working with youth to prevent teen pregnancy. OPA expects Centers to address important and relevant topic areas related to adolescent health promotion, including addressing how the reduction of other risky behaviors (such as substance abuse)

would aid in pregnancy prevention. Priority areas include but are not limited to: 1) engaging parents and caregivers; 2) environments supportive of healthy behaviors; 3) fostering positive connections to schools, neighborhoods and communities; 4) • active and meaningful youth engagement; or 5) working with youth serving professionals in the systems that serve the most vulnerable youth populations. OPA expects the Centers to have a high caliber of scientific and technical competency, be forward-looking, provide strong leadership, and collaborate with stakeholders and community partners including state and local health agencies and non-profit, community (including youth and parents) and non-governmental organizations in the development and delivery of research to practice products. [LEARN MORE](#)

NIMH Research Education Mentoring Program for HIV/AIDS Researchers (R25)

(LOI Deadline: August 7, 2020)

(Application Deadline: September 7, 2020)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nation's biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR). To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on Research Experiences and Mentoring Activities that either capitalize on existing networks of collaborating investigators or develop institute-based research education programs. Both research experiences and mentoring activities are required; research experiences are expected to be primary. Research Education Programs are expected to enhance the professional development of the participants and foster a career trajectory towards independent research in the mental health of HIV/AIDS. [LEARN MORE](#)

CDC Pregnancy Risk Assessment Monitoring System (PRAMS)

(Application Deadline: August 11, 2020)

The Pregnancy Risk Assessment Monitoring System (PRAMS), initiated in 1987 due to stagnant infant mortality rates, collects jurisdiction-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy. The survey asks new mothers questions about their pregnancy and their new baby and the data are used to monitor the prevalence of maternal behaviors and experiences to inform programs and systems changes that influence maternal and infant health, as well as conduct research. PRAMS provides jurisdiction-specific and population-based data on the population of women recently delivering a live birth or stillborn infant. Because less than 5% of the general population is pregnant at any time, there is a need for data that purposely samples from this population to provide stable estimates that can be stratified by population subgroup, as well as to provide jurisdiction-specific estimates of maternal experiences and behaviors that occur before, during, and shortly after pregnancy. PRAMS data are used to examine the associations between risk factors and outcomes, explore disparities by subpopulations, and compare health indicators across jurisdictions. For example, PRAMS data have been used to monitor progress over time for safe infant sleep practices, unintended births, and patterns of health insurance coverage. PRAMS data are used to conduct research at the state and federal level and are used to investigate emerging issues in the field of

reproductive health. This NOFO solicits applications to: 1) implement standardized surveillance of postpartum women with a recent live birth or stillbirth on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy; 2) implement surveillance on emerging issues related to maternal and child health that arise during the data collection cycle including post-disaster or emergency surveillance; and 3) ensure collection of timely, high quality data for ongoing monitoring of maternal and infant health to inform programs, research, and system changes. The activities in the NOFO will be conducted under three separate Components of funding: Component A: Core Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy, including emerging issues, among women with a recent live birth in up to 53 vital records jurisdictions. Component B: Point-in-time Tribal Surveillance - To implement a point-in-time (one time, one birth year) surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women with a recent live birth in up to 2 federally recognized American Indian Tribes, Alaska Native Villages, or Urban Indian Organizations (UIOs) with at least 1,000 live births annually or tribal organizations that support American Indian Tribes, Alaska Native Villages or Urban Indian Organizations with a service area that covers at least 1,000 live births annually. Component C: Stillbirth Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women who recently experienced a stillbirth in up to 2 vital records jurisdictions. HRSA Service Area Competition

(Application Deadline: August 17, 2020)

(Supplemental Info Deadline: September 14, 2020)

The purpose of this grant program is to improve the health of the Nation's underserved communities and vulnerable populations by assuring continued access to comprehensive, culturally competent, quality primary health care services. [LEARN MORE](#)

Foundation

Kate B. Reynolds Charitable Trust: Maintaining the Health Care Safety Net

(Call-by Date: July 21, 2020)

(Application Deadline: August 4, 2020)

As the health system shifts to new payment models, we know that financially vulnerable residents including the uninsured and underinsured will suffer disproportionately from a lack of access to care. Given this transition and the COVID-19 pandemic, it is especially important to ensure the continued viability of the health care safety net system in the state. This is a statewide funding opportunity to support communications, community education, advocacy efforts, and research and evaluation that help maintain the viability of the health care safety net system.

**Kent Richard Hofmann Foundation: HIV/AIDS Grants
(LOI Deadline: July 31, 2020)****(Application Deadline: August 28, 2020)**

The Kent Richard Hofmann Foundation is a small, private foundation dedicated to the fight against HIV and AIDS. Grants are made semi-annually, to non-profit organizations, in support of: 1) Care and direct services, 2) Education, and 3) Research. Grants are made to support developing or established programs, with emphasis on direct benefit to clients or target audiences. Requests from throughout the US are considered, with a particular interest in smaller communities and rural areas. Previous requests receiving serious consideration have included: 1) Requests from locations with a scarcity of available funding; 2) Requests for seed money for new projects, programs, or structures; and 3) Innovative ideas for meeting standard needs. **RWJF Evidence for Action: Approaches to Advance Gender Equity From Around the Globe
(Application Deadline: August 26, 2020)**

The goal of this funding opportunity is to translate and adapt knowledge from around the world to the United States on approaches that can improve health or the determinants of health by improving gender equity. In the United States, determinants of health relate to personal safety, economic opportunity, education access (post-secondary or beyond), supportive workplace and social environments, and protection from bias and discrimination for vulnerable groups. We are especially interested in understanding how to change systems, norms, and practices—such as patriarchy and heterosexism—that systematically disfavor women, girls, and other groups based on gender or sexual identity. Specifically, we seek to learn from initiatives underway outside the United States whose effectiveness is supported or suggested by empirical evidence and that have the potential to be adapted and implemented in the United States. Some examples of approaches of interest are those that aim to: 1) Achieve pay equity; 2) Provide supports in the workplace or other social environments for pregnant women, parents and families; 3) Counteract cultural stereotypes or expectations that bias women and girls toward low-wage careers or health-damaging jobs or roles; 4) Address norms, practices, and resources in ways that reduce gender-based violence, aggression, or harassment; 5) Modify social expectations that promote risky behaviors or contribute to poor mental health; 6) Build on frameworks about gender, power, and health from groups around the world who have unique traditions and practices related to gender norms and roles; 7) Create opportunities for gender minorities to make decisions that affect their lives and communities, and to emerge as leaders in government and other positions of influence; or 8) Apply nonbinary interpretations of gender in policymaking, resource allocation, or service provision. Scaife Family Foundation Grants **(Application Deadline: September 1, 2020)**

Scaife Family Foundation grant awards will support and develop programs that strengthen families, address issues surrounding the health and welfare of women and children, promote animal welfare, and that demonstrate the beneficial interaction between humans and animals. The Foundation will consider grants directed toward early intervention and prevention efforts in the area of drug and alcohol addiction. [LEARN MORE](#)

Cigna Healthier Kids for Our Future: Mental Health Grant **(Application Deadline: September 30, 2020)**

In 2019, Cigna launched Healthier Kids For Our Future, a five-year, \$25 million initiative to improve the health and well-being of children around the world—with an initial focus on food insecurity—in recognition that regular access to nutritious and sufficient food is the starting point for a healthier, more productive life. In 2020, we are expanding the initiative to include good health and well-being with a focus on mental health. Our goal is to supplement existing mental health programming, and help close gaps both within and outside the school environment to address loneliness, anxiety, depression, and suicide prevention. We will fund programs that foster collaboration between stakeholders including school administrators and teachers, clinicians, and local and national nonprofits to address mental health and emotional well-being challenges for children. Partners are encouraged to leverage one or more of the follow evidence-based programs: 1) Trauma Informed Practices (TIPS), 2) Social Emotional Learning (SEL), and 3) Positive Behavioral Interventions and Supports (PBIS). [LEARN MORE](#)

Hearst Foundations Grants **(Application Deadline: Rolling)**

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. [LEARN MORE](#)

Alkermes Education Grants **(Application Deadline: Rolling)**

Alkermes contributes to independent education by supporting educational grants. Our focus areas include educational activities with pragmatic approaches to improve patient care and public health in the domains of schizophrenia, depression, and alcohol and opioid dependence. We expect to contribute to a better and expanded understanding of the underlying mechanisms of disease and their relevance to medications that address those characteristics, as well as the overall treatment in a broad sense that includes psychosocial methods. [LEARN MORE](#)

RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health (Application Deadline: Rolling)

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. [LEARN MORE](#)

HRSA Children's Hospitals Graduate Medical Education (CHGME) Payment Program (Application Deadline: July 24, 2020)

(Supplemental Info Deadline: August 28, 2020)

The purpose of this program is to fund freestanding children's hospitals to support the training of pediatric and other residents in graduate medical education (GME) programs. [LEARN MORE](#)

NIMH Research Education Mentoring Program for HIV/AIDS Researchers (R25)

(LOI Deadline: August 7, 2020)

(Application Deadline: September 7, 2020)

The NIH Research Education Program (R25) supports research education activities in the mission areas of the NIH. The over-arching goal of this National Institute of Mental Health (NIMH) R25 program is to support educational activities that complement and/or enhance the training of a workforce to meet the nation's biomedical, behavioral and clinical research needs and advance the priorities outlined in the Office of AIDS Research (OAR) Annual Strategic Plan and the research program priorities of the NIMH Division of AIDS Research (DAR). To accomplish the stated over-arching goal, this FOA will support creative educational activities with a primary focus on Research Experiences and Mentoring Activities that either capitalize on existing networks of collaborating investigators or develop institute-based research education programs. Both research experiences and mentoring activities are required; research experiences are expected to be primary. Research Education Programs are expected to enhance the professional development of the participants and foster a career trajectory towards independent research in the mental health of HIV/AIDS. Golden LEAF Open Grants Program (Application Deadline: Rolling)

The Golden LEAF Foundation is committed to using the funds entrusted to it for projects that show the most potential for strengthening North Carolina's long-term economy, especially in tobacco-dependent, economically distressed, and/or rural communities. Golden LEAF makes grants for projects that the Foundation's Board of Directors believes have extraordinary merit and address the Foundation's purposes as set forth in its Charter. Grants in this program are not expected to exceed \$200,000. Since requests are likely to far exceed funds available, the Foundation will be looking for projects in the following focus areas of Economic Investment and Job Creation, Workforce Preparedness and Education, Agriculture, and Community Vitality.

State

DHHS Community Rehabilitation Program (CRP) (Application Deadline: Rolling)

The purpose of this program is to provide assessment, training, and appropriate supports for consumers with disabilities to reach successful competitive employment. Quality services in the areas of supported employment and work adjustment services must be provided by successful applicants. This program offers facility-based and community-based services that are designed to provide consumers with disabilities with equal opportunities in achieving their highest level of economic and social independence. Supported service models include: 1) Supported employment (SE): requires long-term vocational support and may include job development, job placement, intensive job coaching, and community-based supplemental evaluation to determine required supports and vocational direction; 2) Project Search: includes transition training and placement services for students with disabilities who have significant intellectual or developmental disabilities; and 3) Work adjustment services (WA): includes job development, placement, and coaching, as well as activities to improve and increase productivity, attendance, punctuality, ability to work with others, work tolerance, and ability to work under supervision.

OASH Title X Services Grants: Providing Publicly-Funded Family Planning Services in Areas of High Need

(Application Deadline: July 28, 2020)

This notice solicits applications for projects to expand voluntary family planning services in areas that are currently unserved and/or underserved by the Title X network in all service areas other than Maryland. Approximately \$18 million is available for competing grants throughout the States. Between the two notices, the Office of Population Affairs (OPA) intends to fund an estimated 10 grants between \$250,000 to \$4 million each annually for up to two years to public and/or nonprofit private entities to assist in the establishment and operation of voluntary family planning projects which shall offer a broad range of acceptable and effective family planning methods and services, including fertility awareness-based methods (previously referred to as natural family planning), infertility services, and services for adolescents. ACF Human Trafficking Youth Prevention Education (HTYPE) Demonstration Grants

(Application Deadline: July 31, 2020)

The goal of the HTYPE Demonstration Program is to fund local educational agencies (LEA) to develop and implement programs to prevent human trafficking victimization through the provision of skills-based human trafficking training and education for school staff and students as specified in the Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act of 2018. Under the HTYPE Demonstration Program, the following activities are required: 1) provide human trafficking education that equips educators and other staff to identify and respond to signs that students are at high risk of or are currently experiencing human trafficking; 2) deliver student human trafficking prevention education that is designed to build student resilience to labor trafficking and sex trafficking by strengthening student knowledge and skills; 3) train qualified individuals to implement and replicate project activities throughout the school district or identified target area(s); and 4) establish and implement a Human Trafficking School Safety Protocol (HTSSP).

The LEA must work in partnership with a nonprofit or nongovernmental organization (NGO) to provide all aspects of human trafficking prevention education to students and school staff. The LEA will consult with local law enforcement in the development of the HTSSP, specifically to address the safety, security, and well-being of staff and students and to define the proper and effective role of school staff in responding to potential and confirmed cases of human trafficking, including notifying and engaging parents, guardians, or caregivers, as appropriate. OASH Pregnancy Prevention Research Grants (Application Deadline: August 4, 2020)

This notice solicits applications for projects that will conduct research that would make significant contributions to the mission of the Office of Population Affairs and to the pregnancy prevention and family planning fields. Under this announcement, research and evaluation projects that encourage healthy behavior choices to delay the onset of sexual activity, reduce number of sexual partners, and if sexually active, encourage the use of preventative measures for STIs and pregnancy will be considered. These grants are for research that can be conducted within 1-2 years, such as secondary data analyses using existing program and evaluation data or administrative data. Potential areas of investigation include, but are not limited to: 1) Identify factors that improve the efficiency, effectiveness, and quality of pregnancy prevention programs for adolescents or young adults, or reduce disparities, by age, gender, race/ethnicity, or setting; 2) Identify and/or validate core program components or “active ingredients” essential for programs and practices to produce the desired outcomes; 3) Identify specific characteristics of program models, participants, or program implementation associated with program impacts; and 4) Apply innovative methods or techniques from other disciplines that are novel to pregnancy prevention research such as network analysis, matching and distillation techniques, system dynamics modeling or geographic information systems, to address questions beyond the general effectiveness of pregnancy prevention programs. [LEARN MORE](#)

OASH Research to Practice Center Grants for Adolescent Health Promotion in Order to Prevent Teenage Pregnancy (Application Deadline: August 4, 2020)

This notice solicits applications for projects that will synthesize and translate existing research into practice for health promotion activities that will lead to adoption of healthy behaviors and ultimately help to reduce teen pregnancy. Subject to availability of funds, OPA will fund no more than one grant per priority area. Organizations may apply for more than one priority area; however, each application may only address a single priority area. Funded organizations will be referred to from here on as “centers”. The national centers will be expected to coordinate and collaborate with each other, OPA, and potentially other OPA grantees conducting research in related topic areas. OPA expects Centers to evaluate or assess best practices, approaches or strategies in a priority protective area and make that information easily accessible to health providers, caregivers and others working with youth to prevent teen pregnancy. OPA expects Centers to address important and relevant topic areas related to adolescent health promotion, including addressing how the reduction of other risky behaviors (such as substance abuse) would aid in pregnancy prevention. Priority areas include but are not limited to: 1) engaging parents and caregivers; 2) environments supportive of healthy behaviors; 3) fostering positive connections to schools, neighborhoods and communities; 4) active and meaningful youth engagement; or 5) working with youth serving professionals in the systems that serve the most vulnerable youth populations. OPA expects the Centers to have a high caliber of scientific and technical competency, be forward-looking, provide strong leadership, and collaborate with stakeholders and community partners including state and local health agencies and non-profit, community (including youth and parents) and non-governmental organizations in the development and delivery of research to practice products. [LEARN MORE](#)

**CDC Pregnancy Risk Assessment Monitoring System (PRAMS)****(Application Deadline: August 11, 2020)**

The Pregnancy Risk Assessment Monitoring System (PRAMS), initiated in 1987 due to stagnant infant mortality rates, collects jurisdiction-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy. The survey asks new mothers questions about their pregnancy and their new baby and the data are used to monitor the prevalence of maternal behaviors and experiences to inform programs and systems changes that influence maternal and infant health, as well as conduct research. PRAMS provides jurisdiction-specific and population-based data on the population of women recently delivering a live birth or stillborn infant. Because less than 5% of the general population is pregnant at any time, there is a need for data that purposely samples from this population to provide stable estimates that can be stratified by population subgroup, as well as to provide jurisdiction-specific estimates of maternal experiences and behaviors that occur before, during, and shortly after pregnancy. PRAMS data are used to examine the associations between risk factors and outcomes, explore disparities by subpopulations, and compare health indicators across jurisdictions. For example, PRAMS data have been used to monitor progress over time for safe infant sleep practices, unintended births, and patterns of health insurance coverage. PRAMS data are used to conduct research at the state and federal level and are used to investigate emerging issues in the field of reproductive health. This NOFO solicits applications to: 1) implement standardized surveillance of postpartum women with a recent live birth or stillbirth on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy; 2) implement surveillance on emerging issues related to maternal and child health that arise during the data collection cycle including post-disaster or emergency surveillance; and 3) ensure collection of timely, high quality data for ongoing monitoring of maternal and infant health to inform programs, research, and system changes. The activities in the NOFO will be conducted under three separate Components of funding: Component A: Core Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy, including emerging issues, among women with a recent live birth in up to 53 vital records jurisdictions. Component B: Point-in-time Tribal Surveillance - To implement a point-in-time (one time, one birth year) surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women with a recent live birth in up to 2 federally recognized American Indian Tribes, Alaska Native Villages, or Urban Indian Organizations (UIOs) with at least 1,000 live births annually or tribal organizations that support American Indian Tribes, Alaska Native Villages or Urban Indian Organizations with a service area that covers at least 1,000 live births annually. Component C: Stillbirth Surveillance - To implement population-based surveillance on selected maternal behaviors and experiences that occur prior to, during, and shortly after pregnancy among women who recently experienced a stillbirth in up to 2 vital records jurisdictions. Cigna Healthier Kids for Our Future: Food Insecurity Grant **(Application Deadline: September 30, 2020)**

One of the focuses of the Healthier Kids for Our Future initiative is to address childhood hunger and improve nutrition. Research has shown that food insecurity can significantly affect a child's short and long-term health, and may lead to poorer health outcomes later in life. We want to work with organizations that are on the ground, in the communities, working to address food security throughout the world. We have learned that schools—at least in the U.S. and in many countries—are a focal point for addressing this issue and in most cases, already have programs supporting at-risk populations. With that in mind, we want to fill the gaps that exist in and outside the school environment. We are looking for programs that attempt to address these, and other gaps, in delivering food and nutritional education to children. The Cigna Foundation is looking for programs that bracket or augment in-school efforts in the following areas: 1) Community-based programs that support children and families' access to healthy meals and nutritional education outside the school setting, on weekends and during the summer; 2) Food and nutritional programs that provide support for expecting mothers and caregivers; 3) Support for programs that address the needs of pre-school children; 4) Health provider/clinician efforts that provide nutritional education to patients and/or food as prescription programming; and 5) School-based programs that enhance or augment state and/or federal assistance efforts. DoT Railroad Trespassing Suicide Prevention Grant Program (Application Deadline: August 10, 2020)

This notice details the application requirements and procedures to obtain funding for eligible projects under the Railroad Trespassing Suicide Prevention Grant Program. Railroad Trespassing Suicide Prevention Grant Program funding totaling \$293,000 is provided in this NOFO by the 2019 and 2020 consolidated appropriations acts, which require the FRA to implement a railroad trespasser prevention strategy. This program is part of the FRA's implementation of railroad trespass prevention efforts. Rural transportation networks play a vital role in supporting our national economic vitality. Addressing the deteriorating conditions and disproportionately high fatality rates on our rural transportation infrastructure is of critical interest to the Department, as rural transportation networks face unique challenges in safety, infrastructure condition, and passenger and freight usage. Consistent with the R.O.U.T.E.S. Initiative, the Department will consider how projects would address the challenges faced by Rural Areas. [LEARN MORE](#)

NIH Time-Sensitive Obesity Policy and Program Evaluation (R01) (Application Deadline: August 11, 2020; September 10, 2020)

This FOA establishes an accelerated review/award process to support time-sensitive research to evaluate a new policy or program that is likely to influence obesity related behaviors (e.g., dietary intake, physical activity, or sedentary behavior) and/or weight outcomes in an effort to prevent or reduce obesity. This FOA is intended to support research where opportunities for empirical study are, by their very nature, only available through expedited review and funding. All applications submitted to this FOA must demonstrate that the evaluation of an obesity related policy and / or program offers an uncommon and scientifically compelling research opportunity that will only be available if the research is initiated with minimum delay. For these reasons, applications submitted to this time-sensitive FOA are not eligible for re-submission. It is intended that eligible applications selected for funding will be awarded within 4 months of the application due date. However, administrative requirements and other unforeseen circumstances may delay issuance dates beyond that timeline. [LEARN MORE](#)

HUD Alternative Methods For Calculating Fair Market Rents (FMRs) in Rental Markets With Rapidly Rising Rents

(Application Deadline: August 4, 2020)

Through this NOFA, HUD is announcing the availability of \$500,000 for a study of alternative methods for calculating Fair Market Rents (FMRs) in rental markets with rapidly rising rents. HUD is soliciting proposals for research that will accomplish the following: 1) Define "rental markets with rapidly rising rents"; and 2) Identify alternative calculations to generate FMRs that more closely track market conditions in rapidly rising rental markets than current methods. This may

include, but is not limited to, alternative sources of gross rent data and/or alternative calculation methodologies using existing data. The primary objective of this project is to identify better methods for calculating FMRs for markets in disequilibrium where rents are rising rapidly and FMRs calculated using current methods coupled with current payment standard authority are insufficient to enable Housing Choice Voucher families to find and lease suitable units within the search time allowed. In addition to the primary objective, this research should consider whether the alternative calculation methods should be applied to the calculation of Fair Market Rents in all types of housing markets. HUD Self-Help Homeownership Opportunity Program (SHOP) **(Application Deadline: August 18, 2020)**

The Self-Help Homeownership Opportunity Program (SHOP) awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. Through this NOFO, HUD is making \$10,000,000 of FY2020 Self-Help Homeownership Opportunity Program (SHOP) grant funds available to national and regional non-profit organizations and consortia. SHOP funds must be used for eligible expenses to develop decent, safe and sanitary non-luxury housing for low-income persons and families who otherwise would not be able to afford to become homeowners. SHOP units must be decent, safe, and sanitary non-luxury dwellings that comply with state and local codes, ordinances, and zoning requirements, and with all other SHOP requirements. Only national and regional non-profit organizations and consortia with experience facilitating innovative homeownership opportunities through the provision of self-help homeownership housing programs are eligible to apply. Applicants must propose to use a significant amount of SHOP grant funds in at least two states. Individuals are not eligible applicants for SHOP grant funds. Applications received from individuals will not be reviewed by HUD. Land acquisition, infrastructure improvements, and reasonable and necessary planning and administration costs (not to exceed 20 percent) are the only eligible uses for SHOP grant funds. A SHOP grantee cannot spend more than \$15,000 per SHOP unit on the combined costs of land acquisition and infrastructure improvements from its SHOP grant award. Successful applicants must leverage other public and private funds to pay for the construction or rehabilitation costs of each SHOP unit and for any other program costs that are not assisted with SHOP grant funds. The SHOP units must be sold to homebuyers at prices below the prevailing market price. Homebuyers must be low-income and must contribute a significant amount of sweat equity towards the development of the SHOP units. Reasonable accommodations must be permitted for individuals with disabilities in order for such individuals to meet hourly sweat equity requirements. A homebuyer's sweat equity contribution cannot be mortgaged or otherwise restricted upon future sale of the SHOP unit. Volunteer labor is also required. SHOP Grantees may award SHOP grant funds to local non-profit affiliate organizations to carry out the Grantee's SHOP program. These affiliate organizations must be located within the Grantee's service area. HUD expects to make approximately 4 awards from the funds available under this NOFO. [LEARN MORE](#)

HUD Veterans Housing Rehabilitation and Modification Pilot Program (VHRMP) (Application Deadline: August 18, 2020)

The purpose of the Veterans Housing Rehabilitation and Modification Pilot Program (VHRMP) is to explore the potential benefits of awarding grants to nonprofit organizations to rehabilitate and modify the primary residence of veterans who are low-income and have disabilities. The funds made available under this program will be awarded competitively. Several America's veterans who are low-income and have disabilities are in need of adaptive housing to help them regain or maintain their independence, are unable to fund significant home repairs, or are burdened by utility costs. In partnership with the U.S. Department of Veterans Affairs, HUD designed the VHRMP to test a new approach to address these challenges. The VHRMP provides competitive grants of up to \$1 million each to nonprofit organizations that provide nationwide or statewide programs that primarily serve veterans and/or low-income individuals. The grants may be used to modify or rehabilitate eligible veterans' primary residences or to provide grantees' affiliates with technical, administrative, and training support in connection with those services. In the FY 2020 competition for VHRMP grants, HUD will award up to \$9,445,980, including \$4 million in new funding provided under the Further Consolidated Appropriations Act, 2020 and \$5,445,980 in remaining VHRMP funding. ACF Human Trafficking Youth Prevention Education (HTYPE) Demonstration Grants (Application Deadline: July 31, 2020)

The goal of the HTYPE Demonstration Program is to fund local educational agencies (LEA) to develop and implement programs to prevent human trafficking victimization through the provision of skills-based human trafficking training and education for school staff and students as specified in the Frederick Douglass Trafficking Victims Prevention and Protection Reauthorization Act of 2018. Under the HTYPE Demonstration Program, the following activities are required: 1) provide human trafficking education that equips educators and other staff to identify and respond to signs that students are at high risk of or are currently experiencing human trafficking; 2) deliver student human trafficking prevention education that is designed to build student resilience to labor trafficking and sex trafficking by strengthening student knowledge and skills; 3) train qualified individuals to implement and replicate project activities throughout the school district or identified target area(s); and 4) establish and implement a Human Trafficking School Safety Protocol (HTSSP).

The LEA must work in partnership with a nonprofit or nongovernmental organization (NGO) to provide all aspects of human trafficking prevention education to students and school staff. The LEA will consult with local law enforcement in the development of the HTSSP, specifically to address the safety, security, and well-being of staff and students and to define the proper and effective role of school staff in responding to potential and confirmed cases of human trafficking, including notifying and engaging parents, guardians, or caregivers, as appropriate. Foundation

Kate B. Reynolds Charitable Trust: Maintaining the Health Care Safety Net (Call-by Date: July 21, 2020) (Application Deadline: August 4, 2020)

As the health system shifts to new payment models, we know that financially vulnerable residents including the uninsured and underinsured will suffer disproportionately from a lack of access to care. Given this transition and the COVID-19 pandemic, it is especially important to ensure the continued viability of the health care safety net system in the state. This is a statewide funding opportunity to support communications, community education, advocacy efforts, and research and evaluation that help maintain the viability of the health care safety net system.

Grantmakers for Girls of Color (C4GC): Love is Healing COVID-19 Response Fund**(Application Deadline: Rolling)**

The G4GC Love is Healing COVID-19 Response Fund seeks to support coalitions and organizations that have been fighting historical inequities and the marginalization of girls of color well before COVID-19. Priority areas for funding include the following areas targeting girls and gender expansive youth of Black/African American, Latinx, Indigenous/Native, Middle Eastern, and/or Asian Pacific descent: preventative or responsive health strategies (mental, physical, emotional), interventions to support institutionalized girls and gender expansive youth and survivors of gender-based violence, economic and educational response strategies, and COVID-19-related advocacy and immediate mapping needs. Applications are accepted by invitation only, but interested organizations can submit an [interest form](#) for consideration. [LEARN MORE](#)

Roger I. and Ruth B. MacFarlane Foundation: Category 2 Grants**(LOI Deadline: Rolling)**

The Roger I. and Ruth B. MacFarlane Foundation supports organizations that strive to increase the opportunities and improve the quality of life of individuals and communities. The Foundation acts as a catalyst for organizations and their programs to enhance their impact and expand their reach. [LEARN MORE](#)

Hearst Foundations Grants**(Application Deadline: Rolling)**

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. [LEARN MORE](#)

**RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health
(Application Deadline: Rolling)**

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. [LEARN MORE](#)

**Golden LEAF Open Grants Program
(Application Deadline: Rolling)**

The Golden LEAF Foundation is committed to using the funds entrusted to it for projects that show the most potential for strengthening North Carolina's long-term economy, especially in tobacco-dependent, economically distressed, and/or rural communities. Golden LEAF makes grants for projects that the Foundation's Board of Directors believes have extraordinary merit and address the Foundation's purposes as set forth in its Charter. Grants in this program are not expected to exceed \$200,000. Since requests are likely to far exceed funds available, the Foundation will be looking for projects in the following focus areas of Economic Investment and Job Creation, Workforce Preparedness and Education, Agriculture, and Community Vitality. AHRQ Using Innovative Digital Healthcare Solutions to Improve Quality at the Point of Care (R21/R33)

(Estimated Application Deadline: TBD)

The overarching objective for this FOA is to improve the quality of healthcare services delivery at the point of care. This FOA aims to support phased exploratory and developmental research projects that test promising digital healthcare interventions intended to improve quality at the point of care. Research should be designed to test promising digital healthcare solutions that enable or facilitate technology-driven, point of care process solutions that use advanced analytics, patient-centered clinician and patient facing digital healthcare technologies, or clinical decision support systems to improve quality and health outcomes at the point of care. A theoretical framework should inform the research study and incorporate the use of care models when appropriate. [LEARN MORE](#)

NCDHHS Local Justice Systems to Combat Opioid Epidemic

(Estimated Application Deadline: TBD)

The Bureau of Justice Assistance's Comprehensive Opioid Abuse Program (COAP) Statewide Implementation, Enhancement and Evaluation Initiatives has awarded the NC Department of Health and Human Services (NCDHHS) a three-year, \$6.5 million grant.

As part of this federal grant, NCDHHS will release a Request For Applications (RFA) to competitively award funds to applicant sites for: 1) Pre-arrest or pre-conviction diversion programs, such as Law Enforcement Assisted Diversion (LEAD Programs) and Police Assisted Addiction and Recovery Initiatives (PAARI), that divert low-level offenders to appropriate treatment options; 2) Comprehensive jail-based medication assisted treatment programs that provide medication assisted treatment (MAT) to individuals during incarceration and connect them to continued treatment upon release. Comprehensive MAT programs – which include providing buprenorphine, methadone or both – along with group and/or individual therapy services are the gold standard for opioid use disorder treatment; and 3) Overdose prevention education and naloxone distribution programs to engage people during incarceration and provide harm reduction education on how to prevent overdoses, respond to an overdose, and access community resources.

Sites may apply to implement a program that includes one, two or all three of these strategies.

OASH Community-wide Approaches for Healthy Children

(Estimated Application Deadline: TBD)

The Office of Minority Health (OMH) is offering a funding opportunity to assess the effectiveness of interventions targeted community-wide in order to prevent adverse childhood experiences (ACEs) in racial/ethnic minority and disadvantaged populations. Funding will be used to implement and evaluate prevention approaches that expand or improve upon evidence-based interventions or promising research evidence. OMH will fund awards annually for a project period of up to 2 years. A limited competition among grant recipients making satisfactory progress will be considered for a third year of funding. This funding opportunity builds upon lessons learned from other interventions targeted specifically toward individual youth who have experienced trauma and aligns with an enhanced Departmental focus on primary prevention of ACEs. **ACL Disability and Rehabilitation Research Projects (DRRP): Assistive Technology to Promote Independence and Community Living (Development)****(Estimated Application Deadline: TBD)**

Under this particular DRRP priority, applicants must propose a development project that is aimed at improving technology solutions to improve independence and community living outcomes of people with disabilities – with a particular emphasis on seniors with disabilities. NIDILRR plans to make four DRRP awards under this grant competition. For this grant competition we are inviting both research applications and development applications. Please note that this forecast is for a Funding Opportunity Announcement for DRRP development projects toward technology solutions to promote independence and community living outcomes of people with disabilities – with a particular emphasis on seniors with disabilities. NIDILRR's four awards under this grant competition may include research projects, development projects, or both, depending on the ranking of applications provided by the peer review panel. CDC Centers of Excellence to Promote a Healthier Workforce (U19)**(Estimated Application Deadline: October 30, 2020)**

The purpose of this NOFO is to support Centers of Excellence for TWH to develop and conduct multidisciplinary research, intervention, outreach and education, and evaluation activities that will advance the overall safety, health, and well-being of the diverse population of workers in our nation. Center structure should take advantage of diverse scientific resources and focus on local, regional, and/or national worker safety and health issues. Centers should place emphasis on the creation and implementation of evidence-based solutions that address evolving challenges and opportunities related to worker safety, health, and well-being. Collaborations with other academic institutions, nonprofit organizations, and other occupational safety and health focused groups are expected. Applicants must concisely describe the occupational health burden within their service area and directly link research and outreach activities to help alleviate the burden. Applicants should also clearly articulate the anticipated impacts of the proposed work, both during the project period and beyond. [LEARN MORE](#)
