OSHA Workplace Safety and Health Training on Infectious Diseases, Including COVID-19 (Application Deadline: July 26, 2021)

OSHA is announcing the availability of \$10,000,000 to train employees and employers on infectious disease, including COVID-19 exposure in the workplace through the Susan Harwood Training Grant Program. OSHA expects to award multiple grants to eligible nonprofit organizations under this competitive FOA. Program funding is for a grant performance period ending on March 31, 2023. The maximum award for a Workplace Safety and Health Training on Infectious Diseases, Including COVID-19 grant is \$200,000. Applications submitted under this FOA are competing for a Workplace Safety and Health Training on Infectious Diseases, Including COVID-19 grant. [LEARN MORE](#)

HRSA COVID-19 Claims Reimbursement for Uninsured Patients (Application Deadline: Rolling)

HRSA provides an electronic reimbursement portal for healthcare providers who have conducted COVID-19 testing or provided treatment for uninsured individuals on or after February 4, 2020. Reimbursement will be made for qualifying testing and treatment services, which include: Specimen collection, diagnostic, and antibody testing; Testing-related visits in the office, urgent care, emergency room, or telehealth; Treatment including office visits, telehealth, emergency room, inpatient, outpatient/observation, skilled nursing facility, long-term acute care, acute inpatient rehab, home health, emergency ground ambulance transportation, non-emergent patient transfers via ground ambulance, and FDA approved drugs as they become available for COVID-19 treatment and administered as part of an inpatient stay; When an FDA-approved vaccine becomes available, it will also be covered. School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act (Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. [LEARN MORE](#)

Open Road Alliance (Application Deadline: Rolling)

The effect of the COVID-19 pandemic on the impact sector has reached natural disaster proportions in its scope and scale, which means that the global need for our ‘emergency’ capital vastly outstrips our available resources. Given this reality, we have decided to use our limited resources to best serve the sector under the following circumstances: 1) Charitable Grants: Will only be offered to organizations responding directly to COVID-19. Awards can be up to \$100,000. 2) Loans: Open Road will be offering four loan products to organizations affected by COVID-19: i) Lost Event Revenue, ii) Accelerating Incoming Emergency Funds, iii) Co-investment to Support Social Enterprises, and iv) Deep Impact Loans. As always, all of our grant and loan products will be subject to Open Road’s traditional criteria: We only make a loan or grant to an organization that is 1) otherwise fully funded, then 2) hit an unexpected, external roadblock (i.e., COVID-19), where 3) Open Road’s loan can fully solve the problem at hand and 4) demonstrate the potential to create catalytic impact. In this time of exceptional need, we will be prioritizing impact. [LEARN MORE](#)

RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health (Application Deadline: Rolling)

Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. [LEARN MORE](#)

ACF Community Services Block Grant (CSBG) CARES Act Rapid-Cycle Impact Projects (Application Deadline: July 26, 2021)

This new FOA will support the continuous progress toward the CSBG CARES Act RCIP goal of adapting current eligible entity service models to effectively respond to immediate community needs while also preparing for a future model that realigns local service based on those needs. The grantees under this cooperative agreement will be responsible for implementing community-based projects focused on priority areas to be specified by OCS. Examples include: Coordination with public health and emergency management to address urgent health and social outcomes for people with low-income; Adapting service delivery to a physical distancing environment to promote safety and effectiveness (including use of technology for remote service delivery or to coordinate services); Strengthening individual and family adaptive capacities (including two-generation and intergenerational service models); Making structural reforms at the community-level to reinvent the safety net; Innovations in supports for families affected by school changes and disrupted childcare services; and Identifying and training for high demand jobs in the post-COVID-19 economy. OCS will identify up to 20 regionally diverse projects focusing on one or more OCS priority areas to participate in a Rapid-Cycle Evaluation and Continuous Quality Improvement approach. Grantees will receive support from OCS on all aspects of this rapid-cycle learning approach and assistance in implementing it in their projects on developing rapid-cycle evaluation methods and assist grantees with required reporting and data collection. CDC Enhancing Global Health Security: Strengthening Public Health Surveillance Systems and Preparedness Globally

(Application Deadline: August 9, 2021)

Activities under this Notice of Funding Opportunity (NOFO) should focus on protecting and improving public health globally by: 1) strengthening public health surveillance systems; 2) improving the public health surveillance workforce; 3) improving the interface between public health disease surveillance and laboratory systems; 4) reinforcing emergency surveillance preparedness; 5) enhancing electronic disease surveillance platforms and systems; and 6) enhancing the use of surveillance data for public health action. This NOFO is intended to support global health security partners to develop or continue the implementation of surveillance activities that focus on protecting and improving public health globally through strategic planning, policy, strengthening surveillance capacities and systems through partnerships. These should build and improve regional and country capacities to prevent, detect, respond and control infectious disease outbreaks, strengthen border health security and mitigate public health events of international concern (PHEICs) or other global health threats. HRSA Service Area Competition

(Application Deadline: August 13, 2021)

(Supplemental Info Deadline: September 13, 2021)

The purpose of this grant program is to improve the health of the Nation's underserved communities and vulnerable populations by assuring continued access to comprehensive, culturally competent, high-quality primary health care services. [LEARN MORE](#)

OASH Minority Leaders Development Program (Application Deadline: August 17, 2021)

This notice solicits applications for projects to develop and implement a fellowship program at the U.S. DHHS to provide training in health equity issues and leadership to early career individuals to improve the health of racial and ethnic minority and other disadvantaged populations. The Minority Leaders Development Program aims to enhance skills and competencies necessary for federal leadership service among participants through: 1) a curriculum focused on health care policy, leadership skill building and cultural competence, and aligned with core competencies (e.g. leading change, leading people, results driven, business acumen, and building coalitions) for Federal leadership; and 2) fellowship-related work experiences, supplemental learning opportunities, and mentorship. The Minority Leaders Development Program will fill a gap in federal fellowship opportunities for individuals interested in working at HHS to advance health equity and address the social determinants of health through health policies, programs and practices. In addition, the Minority Leaders Development Program is expected to support efforts to promote diversity, including racial and ethnic minorities, in senior positions within HHS agencies by providing professional development and career pathway opportunities. Reducing and eliminating health disparities is a critical step toward promoting and achieving health equity. OMH expects the initiative to ultimately address health disparities among racial and ethnic minority populations through supporting a diverse public health workforce. OMH expects awardees to demonstrate the impact of project efforts on outcomes and the overarching goal of advancing health equity. OMH anticipates the availability of an estimated \$1,500,000 for this funding opportunity to support approximately three awards ranging from \$500,000 to \$750,000 annually for a project period of up to two (2) years. Kate B. Reynolds Charitable Trust: Decreasing Substance Misuse and Overdose Deaths

(Call-by Date: July 20, 2021)

(Application Deadline: August 10, 2021)

In recent years, stakeholders in North Carolina have spent considerable time and energy crafting recommendations to confront the complex issues of behavioral health and substance use at the state level. A lack of treatment capacity, high uninsured rates in some sections of the population, and rising opioid overdose deaths prompted the creation of these plans. Like many parts of the state, rural Healthy Places North Carolina communities are struggling to reduce rates of addiction to harmful substances and to decrease or eliminate overdose deaths. Organizations and collaboratives in Robeson, Bladen, and Columbus counties in the southeast are addressing addiction by adopting new policies, collecting and analyzing data, offering programs such as medication assisted treatment and peer support, and raising awareness. This opportunity is for Robeson, Bladen, and Columbus counties to continue coordinating coalitions, developing regional recommendations, and raising awareness of the most impacted communities to participate in system change efforts. Our mission is to serve residents who are financially vulnerable and to close racial disparities in health care, so we are particularly interested in how communities are addressing the needs of Medicaid and uninsured patients. Hearst Foundations Grants (Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. The Hearst Foundations assist leading regional hospitals, medical centers and specialized medical institutions providing access to high-quality healthcare for low-income populations. In response to the shortage of healthcare professionals necessary to meet the country's evolving needs, the Foundations also fund programs designed to enhance skills and increase the number of practitioners and educators across roles in healthcare. Because the Foundations seek to use their funds to create a broad and enduring impact on the nation's health, support for medical research and the development of young investigators is also considered. Preference will be given to: (1) Professional development (2) Programs improving access to high-quality healthcare for low-income populations (3) Programs developing and providing specialized care for the complex needs of elderly populations (4) Programs scaling innovative healthcare delivery systems to provide efficient, coordinated care (5) Research, particularly related to finding new cures and treatments for prevalent diseases, such as cancer. RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health (Application Deadline: Rolling)

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. [LEARN MORE](#)

The Commonwealth Fund (Application Deadline: Rolling)

The mission of the Commonwealth Fund is to promote a high-performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, and people of color. The Fund carries out this mandate by supporting independent research on health care issues and making grants to improve health care practice and policy. In its more than 100 years, the Fund has worked by: (1) Demonstrating pioneering approaches and evaluating their results (2) Convening experts across backgrounds and disciplines (3) Publishing the results of our research and disseminating evidence. To apply for a grant from the Commonwealth Fund, please submit a letter of inquiry (LOI) using the online portal. We acknowledge LOIs upon receipt and will contact you to request additional information if needed. Applicants are typically advised of the results of their inquiries within a month and often sooner. LOIs are accepted on a rolling basis. Current funding priorities include vulnerable populations, tracking health system performance, health care coverage and access, international health policy and practice, controlling health care costs, advancing Medicare, Federal and State health policy. health care delivery system reform. ETA: Workforce Opportunity for Rural Communities (WORC)

(Application Deadline: July 21, 2021)

The purpose of this program is to demonstrate the alignment of regionally driven, comprehensive approaches to addressing economic distress and the necessary workforce development activities to ensure dislocated and other workers in the regions are capable of succeeding in current and future job opportunities. Successful long-term economic growth strategies build upon bottom-up, community-led plans that promote economic resilience and maximize regional strengths. The WORC Initiative grants take a long-term view toward assisting eligible communities, including those energy communities that currently or historically have had a high concentration of employment in energy extraction and related industries, in diversifying their economies by investing in developing a skilled workforce through training and other approaches that aligns with local strategies developed by regional partners. This long-term view also acknowledges the impact of the opioid crisis and the significant challenges it presents to a community's workforce. To address these challenges, ETA encourages applicants to include within their applications strategies to address the employment and training needs of individuals affected by substance use disorder in their communities. Foundation Grants

Kate B. Reynolds Charitable Trust: Addressing Childhood Trauma in the Southeast (Call-by Date: July 20, 2021) (Application Deadline: August 10, 2021)

At the Trust, we work to help rural communities thrive, and that starts with supporting children's social and emotional well-being, especially those impacted by toxic stress. Evidence continues to emerge about the negative social-emotional and health impacts of adverse childhood experiences (ACEs) and toxic stress. Young children who have experienced significant trauma and toxic stress are more likely than their peers to have developmental delays and difficulty with self-regulation, which impacts their health and well-being. To address this, the Trust plans to support community engagement, awareness, and system change efforts that directly engage the communities most impacted by trauma and toxic stress in Robeson, Columbus, and Bladen counties. [LEARN MORE](#)

**Kate B. Reynolds Charitable Trust: Planning and Capacity Building to Close Racial Disparities in Birth Outcomes****(Call-by Date: July 20, 2021)****(Application Deadline: August 10, 2021)**

Every expectant family in Forsyth County deserves a healthy birth outcome for their newborn—regardless of their race or economic status. That’s how children begin to thrive, right from the start. But too often, there are disparities in birth and postpartum outcomes. At the state level, Black children are more than twice as likely as white children to die in their first year of life. In Forsyth County, Black and Hispanic infant mortality rates are higher than infant mortality rates for whites. This funding opportunity is intended to help address disparities and ensure healthy birth outcomes for all families. The aim of the Great Expectations initiative is to ensure that children in Forsyth County enter kindergarten ready to learn and leave set for success in school and life. To achieve these aims it is critical to support healthy births and birth justice. The Trust is interested in helping organizations convene and develop community-informed action plans for closing racial disparities in infant mortality rates. In particular, we want to hear from groups based in communities that have been marginalized to help address upstream causes of disparities such as poverty and systemic racism. [LEARN MORE](#)

William T. Grant Foundation: Research Grants on Reducing Inequality**(LOI Deadline: August 4, 2021)**

Our focus on reducing inequality grew out of our view that research can do more than help us understand the problem of inequality—it can generate effective responses. We believe that it is time to build stronger bodies of knowledge on how to reduce inequality in the United States and to move beyond the mounting research evidence about the scope, causes, and consequences of inequality. Toward this end, we seek studies that aim to build, test, or increase understanding of programs, policies, or practices to reduce inequality in the academic, social, behavioral, or economic outcomes of young people. We prioritize studies about reducing inequality on the basis of race, ethnicity, economic standing, language minority status, or immigrant origins. [LEARN MORE](#)

**William T. Grant Foundation: Research Grants on Improving the Use of Research Evidence (LOI Deadline: August 4, 2021)**

Over the past decade, a growing body of research has illuminated the conditions that facilitate the use of research evidence in policy and practice. For example, studies find that when research is relevant to decision makers, deliberated over thoughtfully, and embedded in policymaking processes, routines, and tools, the findings are more likely to be used. Still, there remain many unanswered questions that are critical to understanding how to improve the production and use of research evidence. What's more, there is a scarcity of evidence supporting the notion that research use in policy and practice will necessarily improve youth outcomes. Serious scientific inquiry is needed. We need to know the conditions under which using research evidence improves decision making, policy implementation, service delivery, and, ultimately, youth outcomes. In short, we need research on the use of research. Toward this end, we seek studies that identify, build, and test strategies to enhance the use of research evidence in ways that benefit youth. We are particularly interested in research on improving the use of research evidence by state and local decision makers, mid-level managers, and intermediaries. Some investigators will focus on the strategies, relationships, and other supports needed for policy and practice organizations to use research more routinely and constructively. Others may investigate structures and incentives within the research community to encourage deep engagement with decision makers. Still other researchers may examine activities that help findings inform policy ideas, shape practice responses, and improve systems. [LEARN MORE](#)

School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act (Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. Hearst Foundations Grants (Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. The Hearst Foundations fund direct-service organizations that tackle the roots of chronic poverty by applying effective solutions to the most challenging social and economic problems. The Foundations prioritize supporting programs that have proven successful in facilitating economic independence and in strengthening families. Preference is also given to programs with the potential to scale productive practices in order to reach more people in need. Social Service preference will be given to: (1) Affordable housing (2) Job creation and job training (3) Literacy (4) Youth development. [LEARN MORE](#)

**The Tony Robbins Foundation
(Application Deadline: Rolling)**

Dedicated to meeting challenges within the global community, creating solutions and taking action, The Tony Robbins Foundation provides monetary donations to various organizations around the world. Funding requests are evaluated on an ongoing basis. We look for organizations that align with our mission to empower individuals and organizations to make a significant difference in the quality of life of those often forgotten. We're dedicated to creating positive changes in the lives of youth, seniors, the hungry, homeless and the imprisoned population, all who need a boost envisioning a happier and deeply satisfying way of life. BJA Preventing School Violence: STOP School Violence Program

(Grants.gov Application Deadline: August 2, 2021)

(JustGrants Application Deadline: August 16, 2021)

Through this opportunity, the Bureau of Justice Assistance is seeking applications for funding under the Student, Teachers, and Officers Preventing (STOP) School Violence Grant Program. The STOP School Violence Grant Program is designed to improve K-12 school security by providing students and teachers with the tools they need to recognize, respond quickly to, and help prevent acts of violence and ensure a positive school climate. Eligible applicants may submit one application that includes proposals for one or both of the following areas: 1) Train school personnel and educate students on preventing student violence against others and themselves to include anti-bullying training. This can also include specialized training for school officials to respond to mental health crises; 2) Develop and implement multidisciplinary threat assessment and/or intervention teams and/or operate technology solutions such as anonymous reporting systems for threats of school violence, including mobile telephone applications, hotlines, websites, or other school safety technology solutions for accurate identification of danger (without resort to discriminatory stereotypes or violating privacy). Threat assessment and/or intervention teams must coordinate with law enforcement agencies, behavioral health specialists, community stakeholders, and school personnel, and must include a memorandum of understanding. ACL Projects of National Significance: Community Collaborations for Employment Program **(Application Deadline: August 13, 2021)**

The purpose of the Community Collaborations for Employment Program is to increase and enhance collaborations across existing local systems to maximize a seamless experience and outcome of youth with ID/DD as they transition between school and work in the community. Since a transition period for youth with ID/DD is a multifaceted process, ACL recognizes that no one person, institution, or organization acting alone can provide all the supports and services needed. The ACL, Administration on Disabilities (AoD) seeks to fund approximately eight (8) community-based collaboration models in select communities as demonstration projects that will design and test effective transition services and activities to increase the number of youth with ID/DD such as: 1) Finding and keeping long-term, career-focused competitive integrated employment (CIE); 2) Graduating from post-secondary education programs; and 3) Living and participating fully in their communities. School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act (Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. Hearst Foundations Grants (Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. The Hearst Foundations fund educational institutions demonstrating uncommon success in preparing students to thrive in a global society. The Foundations' focus is largely on higher education, but they also fund innovative models of early childhood and K-12 education, as well as professional development. Preference will be given to: (1) Higher education programs and scholarships and, on a limited basis, scholarships for post-graduate education (2) Professional development for teachers. RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health (Application Deadline: Rolling)

Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. [LEARN MORE](#)

HUD Youth Homelessness Demonstration Program (YHDP) (Application Deadline: July 27, 2021)

The goal of the Youth Homelessness Demonstration Program (YHDP) is to support selected communities in the development and implementation of a coordinated community approach to preventing and ending youth homelessness and sharing that experience with and mobilizing communities around the country toward the same end. The population to be served by this demonstration program is youth experiencing homelessness, including unaccompanied and pregnant or parenting youth. The demonstration has six primary objectives: 1) Build national momentum; 2) Promote equity in the delivery and outcomes of homeless assistance; 3) Evaluate the coordinated community approach; 4) Expand capacity; 5) Evaluate performance measures; and 6) Establish a framework for Federal program and TA collaboration. HUD Veterans Housing Rehabilitation and Modification Pilot Program (Application Deadline: July 30, 2021)

The purpose of the Veterans Housing Rehabilitation and Modification Pilot Program (VHRMP) is to explore the potential benefits of awarding grants to nonprofit organizations to rehabilitate and modify the primary residence of veterans who are low-income and have disabilities. The funds made available under this program will be awarded competitively. A number of America's veterans who are low-income and have disabilities are in need of adaptive housing to help them regain or maintain their independence, are unable to fund significant home repairs, or are burdened by utility costs. In partnership with the U.S. Department of Veterans Affairs, HUD designed the VHRMP to test a new approach to address these challenges. The VHRMP provides competitive grants of up to \$1 million each to nonprofit organizations that provide nationwide or statewide programs that primarily serve veterans and/or low-income individuals. The grants may be used to modify or rehabilitate eligible veterans' primary residences or to provide grantees' affiliates with technical, administrative, and training support in connection with those services.

HUD Healthy Homes and Weatherization Cooperation Demonstration (Application Deadline: August 17, 2021)

HUD through this NOFO is interested in supporting demonstrations in up to 5 communities that provide housing interventions in lower-income households that are conducted jointly through the coordination of HUD's Office of Lead Hazard Control and Healthy Homes (OLHCHH)-funded Lead Hazard Reduction Healthy Homes programs (LHR/HH) and programs funded by the U.S. Department of Energy's (DOE) Weatherization Assistance Program (WAP) to determine whether this coordinated delivery of services achieves cost-effectiveness and better outcomes in improving the safety and energy efficiency of homes. The coordinated assessments and interventions are expected to provide additional benefits to households through the combined mitigation of health and safety hazards and improvements in energy efficiency and comfort. These grants are intended to facilitate the leveraging of assets from both programs and support the exploration of different models of service delivery (e.g., recruitment strategies, partnerships). HUD-funded programs identify and mitigate lead-based paint and other key residential health and safety hazards such as mold and moisture, pest infestation, poor indoor air quality, radon, and injury hazards. The DOE-funded programs conduct energy audits and implement energy conservation measures, while also conducting interventions to improve health and safety (e.g., improved ventilation, installing carbon monoxide and smoke detectors). HUD Self-Help Homeownership Opportunity Program (SHOP) (Application Deadline: August 23, 2021)

The Self-Help Homeownership Opportunity Program (SHOP) awards grant funds to eligible national and regional non-profit organizations and consortia to purchase home sites and develop or improve the infrastructure needed to set the stage for sweat equity and volunteer-based homeownership programs for low-income persons and families. Through this NOFO, HUD is making \$10,000,000 of FY2021 SHOP grant funds available to national and regional non-profit organizations and consortia. SHOP units must be decent, safe, and sanitary non-luxury dwellings that comply with state and local codes, ordinances, and zoning requirements, and with all other SHOP requirements. Only national and regional non-profit organizations and consortia with experience providing self-help homeownership housing programs are eligible to apply. Applicants must propose to use a significant amount of SHOP grant funds in at least two states. [LEARN MORE](#)

ACF Community Services Block Grant (CSBG) CARES Act Rapid-Cycle Impact Projects (Application Deadline: July 26, 2021)

This new FOA will support the continuous progress toward the CSBG CARES Act RCIP goal of adapting current eligible entity service models to effectively respond to immediate community needs while also preparing for a future model that realigns local service based on those needs. The grantees under this cooperative agreement will be responsible for implementing community-based projects focused on priority areas to be specified by OCS. Examples include: Coordination with public health and emergency management to address urgent health and social outcomes for people with low-income; Adapting service delivery to a physical distancing environment to promote safety and effectiveness (including use of technology for remote service delivery or to coordinate services); Strengthening individual and family adaptive capacities (including two-generation and intergenerational service models); Making structural reforms at the community-level to reinvent the safety net; Innovations in supports for families affected by school changes and disrupted childcare services; and Identifying and training for high demand jobs in the post-COVID-19 economy. OCS will identify up to 20 regionally diverse projects focusing on one or more OCS priority areas to participate in a Rapid-Cycle Evaluation and Continuous Quality Improvement approach. Grantees will receive support from OCS on all aspects of this rapid-cycle learning approach and assistance in implementing it in their projects on developing rapid-cycle evaluation methods and assist grantees with required reporting and data collection. EDA Public Works and Economic Adjustment Assistance Programs Including CARES Act Funding

(Application Deadline: Rolling)

Under this NOFO, EDA solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and EAA programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities. EDA provides strategic investments on a competitive-merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States. Past projects have included funding for water and wastewater projects in hospitals and healthcare facilities and road infrastructure projects that would support the expansion of healthcare facilities. Funding is available for: Public Works Projects (Water and sewer system improvements, Industrial parks, Shipping and logistics facilities, Workforce training facilities, Brownfield development, Telecommunications infrastructure and development facilities.) Kate B. Reynolds Charitable Trust: Addressing Childhood Trauma in the Southeast (Call-by Date: July 20, 2021)

(Application Deadline: August 10, 2021)

At the Trust, we work to help rural communities thrive, and that starts with supporting children's social and emotional well-being, especially those impacted by toxic stress. Evidence continues to emerge about the negative social-emotional and health impacts of adverse childhood experiences (ACEs) and toxic stress. Young children who have experienced significant trauma and toxic stress are more likely than their peers to have developmental delays and difficulty with self-regulation, which impacts their health and well-being. To address this, the Trust plans to support community engagement, awareness, and system change efforts that directly engage the communities most impacted by trauma and toxic stress in Robeson, Columbus, and Bladen counties. [LEARN MORE](#)

Kate B. Reynolds Charitable Trust: Planning and Capacity Building to Close Racial Disparities in Birth Outcomes

(Call-by Date: July 20, 2021)

(Application Deadline: August 10, 2021)

Every expectant family in Forsyth County deserves a healthy birth outcome for their newborn—regardless of their race or economic status. That's how children begin to thrive, right from the start. But too often, there are disparities in birth and postpartum outcomes. At the state level, Black children are more than twice as likely as white children to die in their first year of life. In Forsyth County, Black and Hispanic infant mortality rates are higher than infant mortality rates for whites. This funding opportunity is intended to help address disparities and ensure healthy birth outcomes for all families. The aim of the Great Expectations initiative is to ensure that children in Forsyth County enter kindergarten ready to learn and leave set for success in school and life. To achieve these aims it is critical to support healthy births and birth justice. The Trust is interested in helping organizations convene and develop community-informed action plans for closing racial disparities in infant mortality rates. In particular, we want to hear from groups based in communities that have been marginalized to help address upstream causes of disparities such as poverty and systemic racism. [LEARN MORE](#)

William T. Grant Foundation: Research Grants on Reducing Inequality (LOI Deadline: August 4, 2021)

Our focus on reducing inequality grew out of our view that research can do more than help us understand the problem of inequality—it can generate effective responses. We believe that it is time to build stronger bodies of knowledge on how to reduce inequality in the United States and to move beyond the mounting research evidence about the scope, causes, and consequences of inequality. Toward this end, we seek studies that aim to build, test, or increase understanding of programs, policies, or practices to reduce inequality in the academic, social, behavioral, or economic outcomes of young people. We prioritize studies about reducing inequality on the basis of race, ethnicity, economic standing, language minority status, or immigrant origins. [LEARN MORE](#)

William T. Grant Foundation: Research Grants on Improving the Use of Research Evidence (LOI Deadline: August 4, 2021)

Over the past decade, a growing body of research has illuminated the conditions that facilitate the use of research evidence in policy and practice. For example, studies find that when research is relevant to decision makers, deliberated over thoughtfully, and embedded in policymaking processes, routines, and tools, the findings are more likely to be used. Still, there remain many unanswered questions that are critical to understanding how to improve the production and use of research evidence. What's more, there is a scarcity of evidence supporting the notion that research use in policy and practice will necessarily improve youth outcomes. Serious scientific inquiry is needed. We need to know the conditions under which using research evidence improves decision making, policy implementation, service delivery, and, ultimately, youth outcomes. In short, we need research on the use of research. Toward this end, we seek studies that identify, build, and test strategies to enhance the use of research evidence in ways that benefit youth. We are particularly interested in research on improving the use of research evidence by state and local decision makers, mid-level managers, and intermediaries. Some investigators will focus on the strategies, relationships, and other supports needed for policy and practice organizations to use research more routinely and constructively. Others may investigate structures and incentives within the research community to encourage deep engagement with decision makers. Still other researchers may examine activities that help findings inform policy ideas, shape practice responses, and improve systems. [LEARN MORE](#)

Golden LEAF Open Grants Program (Application Deadline: Rolling)

The Golden LEAF Foundation is committed to using the funds entrusted to it for projects that show the most potential for strengthening North Carolina's long-term economy, especially in tobacco-dependent, economically distressed, and/or rural communities. Golden LEAF makes grants for projects that the Foundation's Board of Directors believes have extraordinary merit and address the Foundation's purposes as set forth in its Charter. Grants in this program are not expected to exceed \$200,000. Since requests are likely to far exceed funds available, the Foundation will be looking for projects in the following focus areas of Economic Investment and Job Creation, Workforce Preparedness and Education, Agriculture, and Community Vitality.

**RWJF Evidence for Action: Investigator-Initiated Research to Build a Culture of Health
(Application Deadline: Rolling)**

Evidence for Action (E4A), a national program of the Robert Wood Johnson Foundation (RWJF), funds research that expands the evidence needed to build a Culture of Health. A Culture of Health is broadly defined as one in which good health and well-being flourish across geographic, demographic, and social sectors; public and private decision-making is guided by the goal of fostering equitable communities; and everyone has the opportunity to make choices that lead to healthy lifestyles. RWJF's Culture of Health Action Framework, which was developed to catalyze a national movement toward improved health, well-being, and equity, guides E4A's program strategy. [LEARN MORE](#)
