FDA Innovation Award: COVID-19 and Health Equity (U01)

(Application Deadline: November 29, 2021)

The purpose of this FOA is to fund innovative research that will strengthen and advance COVID-19 health equity research. Areas of interest include: 1) Proposals that focus on advancing racial and ethnic minority participation in COVID-19/COVID-19 variant clinical trials and/or contribute to informing the continued evaluation of the safety and efficacy of FDA approved products (therapeutics, diagnostics, and vaccines) or products subject to EUAs/EUA expansion for the treatment, prevention, or diagnosis of COVID-19; 2) Proposals that support the evaluation of outcomes by demographic data including, but not limited to, ethnicity, race, age, disability, and geography; and 3) Proposals that support COVID-19 research to understand diverse patient perspectives, preferences, and unmet needs. Foundation

School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act

(Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. [LEARN MORE](#)

Open Road Alliance
(Application Deadline: Rolling)

The effect of the COVID-19 pandemic on the impact sector has reached natural disaster proportions in its scope and scale, which means that the global need for our ‘emergency’ capital vastly outstrips our available resources. Given this reality, we have decided to use our limited resources to best serve the sector under the following circumstances: 1) Charitable Grants: Will only be offered to organizations responding directly to COVID-19. Awards can be up to \$100,000. 2) Loans: Open Road will be offering four loan products to organizations affected by COVID-19: i) Lost Event Revenue, ii) Accelerating Incoming Emergency Funds, iii) Co-investment to Support Social Enterprises, and iv) Deep Impact Loans. As always, all of our grant and loan products will be subject to Open Road’s traditional criteria: We only make a loan or grant to an organization that is 1) otherwise fully funded, then 2) hit an unexpected, external roadblock (i.e., COVID-19), where 3) Open Road’s loan can fully solve the problem at hand and 4) demonstrate the potential to create catalytic impact. In this time of exceptional need, we will be prioritizing impact. [LEARN MORE](#)

RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health
(Application Deadline: Rolling)

Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. [LEARN MORE](#)

HRSA Primary Care Training and Enhancement - Physician Assistant Rural Training (PCTE-PAR) Program

(Application Deadline: December 9, 2021)

The purpose of this program is to develop and implement longitudinal clinical rotations for physician assistant students in primary care in rural areas. The program will also support the training and development of preceptors in rural areas. This experience will provide Physician Assistant (PA) students the opportunity for longitudinal primary care clinical training experiences for a minimum of 8 weeks in rural areas. The program aims to meet the health workforce goal of increasing the distribution of primary care practitioners who are ready to practice in and lead the transformation of health care systems aimed at improving access, quality of care, and cost effectiveness in rural areas. [LEARN MORE](#)

HRSA Ryan White HIV/AIDS Program Part C Early Intervention Services Program: New Geographic Service Areas

(Application Deadline: December 10, 2021)

The purpose of this program is to provide comprehensive primary health care and support services in an outpatient setting for low income people with HIV. applicants must propose to provide: (1) counseling for individuals with respect to HIV; (2) targeted HIV testing; (3) periodic medical evaluations of individuals with HIV and other clinical and diagnostic services regarding HIV; (4) therapeutic measures for preventing and treating the deterioration of the immune system, and for preventing and treating conditions arising from HIV; and (5) referrals for people with HIV to appropriate providers of health and support services. These services are to be provided directly or through referrals, contracts or memoranda of understanding (MOUs). [LEARN MORE](#)

AHRQ Making Health Care Safer in Ambulatory Care Settings and Long-term Care Facilities (R18)

(LOI Deadline: December 25, 2021)

(Application Deadline: January 25, 2022)

This FOA will fund large research demonstration and implementation projects that pertain to ambulatory care settings and long-term care facilities with a focus on implementing evidence-based processes to improve patient safety, especially those involving transitions in care. AHRQ is interested in studies in these two settings that develop, utilize, and evaluate strategies to implement existing measures, metrics, tools or practices that have already been validated and have been shown to be efficacious in improving patient safety sites. HRSA Family-to-Family Health Information Centers (Application Deadline: January 5, 2022)

The purpose of this program is to provide information, education, technical assistance, and peer support to families of children and youth with special health care needs (CYSHCN) and the professionals who serve them. [LEARN MORE](#)

CDC National Initiative to Advance Health Equity in K-12 Education by Preventing Chronic Disease and Promoting Healthy Behaviors (Application Deadline: January 10, 2022)

The purpose of this 5-year cooperative agreement is to improve the health and well-being of children, adolescents, and school staff in underserved and disproportionately affected communities. The CDC's Healthy Schools Branch plans to fund four nationally recognized recipients with expertise and experience providing support to CDC-funded state education agencies, districts, schools, out-of-school time providers, and the organization's constituents in the following priority areas: Priority 1 - School Health Services: Strategies and activities support access to physical, behavioral, and mental health services for students, with emphasis on students with chronic health conditions. Priority 2 - Emotional Well-Being: Strategies and activities support emotional well-being of students and staff. Priority 3 - Healthy Out-of-School-Time: Strategies and activities support healthy eating, physical activity, and emotional well-being of students and staff in out-of-school time programs. Priority 4 - School Administrator Support and Action for Healthy Schools: Strategies and activities support adoption of Whole School, Whole Community, Whole Child model policies within districts and schools that address healthy eating, physical activity, and emotional well-being of students and staff. Recipients will provide support through professional development and technical assistance, dissemination, partnerships, and implementation. Expected outcomes to be achieved by the end of the 5-year period of performance include: 1) Increased use of CDC and other evidence-based tools and resources; 2) Increased adoption and implementation of evidence-based school health policies, practices, and programs among state education agencies, districts, schools, and out-of-school time programs; and 3) Expansion of school-based mental health and health services. HRSA Rural Communities Opioid Response Program-Implementation (Application Deadline: January 13, 2022)

This funding opportunity, RCORP-Implementation, will advance RCORP's overall goal by strengthening and expanding SUD/ODU prevention, treatment, and recovery services to enhance rural residents' ability to access treatment and move towards recovery. Given the complex and multifaceted nature of SUD/ODU, as well as the need to secure community buy-in and generate adequate patient volume to sustain services, HRSA requires that applicants be part of broad, multi-sectoral consortia. HRSA expects that consortia funded by RCORP-Implementation will sustain the SUD/ODU-related services in rural areas made possible by this funding opportunity both during and beyond the period of performance. The target population for the award is: 1) individuals who are at risk for, have been diagnosed with, and/or are in treatment and/or recovery for OUD; 2) their families and/or caregivers; and 3) other community members who reside in HRSA-designated rural areas, as defined by the Rural Health Grants Eligibility Analyzer. In addition to this target population, applicants are encouraged to give special consideration to rural populations that have historically suffered from poorer health outcomes or health disparities, as compared to the rest of the rural population. [LEARN MORE](#)

HRSA Rural Health Network Development Planning Program (Application Deadline: January 28, 2022)

The purpose of the Network Planning Grant Program is to promote the development of integrated health care networks in order to: (i) achieve efficiencies; (ii) expand access to, coordinate, and improve the quality of basic health care services and associated health outcomes; and (iii) strengthen the rural health care system as a whole. This program supports one year of planning and brings together key parts of a rural health care delivery system, particularly those entities that may not have collaborated in the past, to establish and/or improve local capacity in order to strengthen rural community health interventions, and enhance care coordination. For the purposes of this program, an integrated health care network is defined as an organizational arrangement among at least three (3) regional or local health care organizations that come together to develop strategies for improving health services in a community. [LEARN MORE](#)

USDA Economic Impact Initiative Grants (Application Deadline: Rolling)

Economic Impact Initiative Grants provide funding to assist in the development of essential community facilities in rural communities that have extreme unemployment and severe economic depression. An essential community facility is one that provides an essential service to the local community, is needed for the orderly development of the community, serves a primarily rural area, and does not include private, commercial, or business undertakings. Examples of essential community facilities include: Healthcare: hospitals, medical clinics, dental clinics, nursing homes, assisted-living facilities Public Facilities: city/town/village halls, courthouses, airport hangers, street improvements Community Support Services: child care centers, community centers, fairgrounds, transitional housing Public Safety: fire halls, police stations, prisons, jails, police vehicles, fire trucks, public works vehicles and equipment Educational: museums, libraries, private schools Utility: telemedicine, distance learning Local Food Systems: community gardens, food pantries, community kitchens, food banks, food hubs, greenhouses, kitchen appliances. NCDHHS Comprehensive Opioid Abuse Site-Based Program: Justice System (Application Deadline: December 3, 2021)

The North Carolina Department of Health and Human Services (DHHS), on behalf of the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services (DMH/DD/SAS), is soliciting applications for organizations to develop or expand services in the areas of 1) pre-arrest diversion programs, 2) jail-based overdose prevention education programs, and 3) comprehensive jail-based medication-assisted treatment programs, as well as a technical assistance manager to support programs developed or expanded in these three areas. [LEARN MORE](#)

**NCDHHS Rural Health Center Capital Grant
(Application Deadline: January 14, 2021)**

The purpose of grants awarded under this program is to support State Designated Rural Health Centers (SDRHC). ORH assists underserved communities and populations with developing innovative strategies for improving access, quality, and cost-effectiveness of health care. The ability of a healthcare facility to meet the needs of a rural patient population is directly related to the efficiency, size, and quality of the facility and its equipment. Capital Grant funding allows for investment in healthcare infrastructure, including the construction, renovation, and expansion of rural healthcare facilities. Capital investments can also be made through the purchase and installation of major equipment and technology. Capital Grant funding does not support staff salaries and requests should not duplicate Community Health, Farmworker Health, or SDRHC grant funded operating projects. [LEARN MORE](#)

**NCDHHS Community Health Grant
(Application Deadline: January 14, 2021)**

These grant funds, supported through the North Carolina General Assembly, are for assuring access to primary and preventive care to meet the health needs of vulnerable, underserved and medically indigent patients, with emphasis on providing primary and preventative medical services to uninsured or medically indigent patients. An important component of this work is to strengthen the safety net through increased levels of collaboration and integration of services to sustain and meet the needs of those served more effectively. When an eligible primary care medical home safety net organization provides integrated care, grant funding may also support dental, pharmacy, and behavioral health services. Primary care safety net organizations who care for underserved and medically indigent patients in North Carolina are eligible to apply for this funding to pay for patient care through encounter-based reimbursement (Track A) or through reimbursement for eligible expenses (Track B). Telehealth services and equipment are eligible expenses in both tracks. Applicants must select ONE track. [LEARN MORE](#)

Foundation

American Diabetes Association: Nutrition and Diabetes Research Awards (LOI Deadline: November 22, 2021)

While many barriers to healthy lifestyles are a result of health inequities that must be addressed at the governmental level, this RFA is soliciting research to improve adoption of lifestyle modifications at the individual and community level with interventions tailored to different racial and socioeconomic groups across the life span. Importantly, applicants should indicate how the proposed research will have a significant impact (“move the needle”) on outcomes in those individuals at risk of, or living with, diabetes. This RFA will prioritize: 1) Nutritional and/or physical activity interventions that more effectively incorporate cultural or personal preferences, psychological supports, comorbid conditions, socioeconomic status, food insecurity, and other factors that may impact consistency with an eating and/or exercise plan and its effectiveness. 2) Approaches that better tailor medical nutrition therapy (MNT) and diabetes self-management education and support (DSMES) to different racial and socioeconomic groups in sustainable real-world settings. 3) Behavioral interventions that help encourage and sustain health diet and increased physical activity. Comparison and/or utilization of different delivery methods aided by wearable technology (e.g. accelerometers, continuous glucose monitors, etc.) and 4) Cost-effectiveness studies to support third-party coverage and policy change. The goal of this RFA is to identify person-centered, yet scalable, dietary and lifestyle interventions with the greatest potential for adoption and maintenance of diabetes-preventing or diabetes-mitigating lifestyles by individuals at greatest risk. The breakdown of targeted grant types is: Innovative Clinical or Translational Science, Junior Faculty Development, and Postdoctoral Fellowship Awards. [LEARN MORE](#)

The Duke Endowment: Health Care Grant (Application Deadline: December 15, 2021)

In Health Care, we focus our work in three main areas: 1) Quality and Safety of Care: In today’s health care environment, improving quality and safety of care must focus on innovative ways of delivery that are high quality and affordable. Grant requests should aim to improve outcomes for patients and reduce costs. Examples of our work focused on Quality and Safety of Care, include Emergency Medical Services and Improving Health Care through Collaboration. 2) Access to Care: Improving access to health care services improved quality of life and health status for all individuals. Funding community-based networks of care that improve access to primary and specialty care for the low-income, uninsured to have access to coordinated care is a priority. In addition, we will consider requests focused on expanding the primary care workforce in under-represented or rural, disadvantaged communities and developing new models of workforce training. Examples of our work focused on Access to Care, include Creating a Network of Care for the Low-Income Uninsured and Strengthening the Primary Care Workforce. 3) Prevention: Grant requests that seek opportunities to deploy strategies aimed at preventing chronic disease and improving the health of communities will be considered. Collaborative efforts between health care and public health systems that measurably improve the health of defined populations are encouraged. [LEARN MORE](#)

School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act (Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. Hearst Foundations Grants (Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. The Hearst Foundations assist leading regional hospitals, medical centers and specialized medical institutions providing access to high-quality healthcare for low-income populations. In response to the shortage of healthcare professionals necessary to meet the country's evolving needs, the Foundations also fund programs designed to enhance skills and increase the number of practitioners and educators across roles in healthcare. Because the Foundations seek to use their funds to create a broad and enduring impact on the nation's health, support for medical research and the development of young investigators is also considered. Preference will be given to: (1) Professional development (2) Programs improving access to high-quality healthcare for low-income populations (3) Programs developing and providing specialized care for the complex needs of elderly populations (4) Programs scaling innovative healthcare delivery systems to provide efficient, coordinated care (5) Research, particularly related to finding new cures and treatments for prevalent diseases, such as cancer. The Commonwealth Fund (Application Deadline: Rolling)

The mission of the Commonwealth Fund is to promote a high-performing health care system that achieves better access, improved quality, and greater efficiency, particularly for society's most vulnerable, including low-income people, the uninsured, and people of color. The Fund carries out this mandate by supporting independent research on health care issues and making grants to improve health care practice and policy. In its more than 100 years, the Fund has worked by: (1) Demonstrating pioneering approaches and evaluating their results (2) Convening experts across backgrounds and disciplines (3) Publishing the results of our research and disseminating evidence. To apply for a grant from the Commonwealth Fund, please submit a letter of inquiry (LOI) using the online portal. We acknowledge LOIs upon receipt and will contact you to request additional information if needed. Applicants are typically advised of the results of their inquiries within a month and often sooner. LOIs are accepted on a rolling basis. Current funding priorities include vulnerable populations, tracking health system performance, health care coverage and access, international health policy and practice, controlling health care costs, advancing Medicare, Federal and State health policy. health care delivery system reform. HRSA Graduate Psychology Education Program

(Application Deadline: December 9, 2021)

The purpose of this program is to train doctoral health service psychology students, interns, and postdoctoral residents to provide quality interdisciplinary, integrated behavioral health including but not limited to Opioid Use Disorder (OUD) and other Substance Use Disorders (SUD) into community-based primary care settings in high need and high demand areas. The program also supports faculty development of health service psychologists. Through these efforts, the GPE Program transforms clinical training environments and is aligned with HRSA's mission to improve health and achieve health equity through access to quality services, a skilled workforce, and innovative programs. [LEARN MORE](#)

HRSA Rural Residency Planning and Development Program

(Application Deadline: December 20, 2021)

The purpose of this grant program is to improve health care in rural areas by supporting the development of new, accredited, and sustainable rural residency programs in family medicine, internal medicine, preventive medicine, psychiatry, general surgery, and obstetrics and gynecology, to address the physician workforce shortages and challenges faced by rural communities. This program provides start-up funding to RRPD award recipients to create new rural residency programs that will ultimately be sustainable long-term through viable and stable funding mechanisms, such as, Medicare, Medicaid, and other public or private funding sources. For the purposes of this notice of funding opportunity, rural residencies are accredited allopathic and osteopathic physician residency programs that primarily train residents in rural training sites for greater than 50 percent of their total time in residency, and focus on producing physicians who will practice in rural communities. Rural residencies may be entirely rurally located or integrated within a larger, often urban residency program, also known as a rural training track (RTT). One common model is the 1-2 RTT format, where the first year of training occurs in an urban hospital or academic medical center, and the final two years in a rural health facility. This program aims to expand the number of physician training opportunities in rural settings and subsequently increase the number of physicians choosing to practice in rural areas. As such, RRPD funding will only support the development of new rural residency programs or RTTs and applications from existing programs will not be considered. [LEARN MORE](#)

HRSA Nurse Faculty Loan Program (NFLP)
(Application Deadline: January 13, 2022)

The purpose of this program is to increase the number of qualified nursing faculty nationwide. NFLP seeks to accomplish this by providing funding to accredited schools of nursing to establish and operate a student loan fund and provide loans to students enrolled in advanced education nursing degree programs who are committed to becoming nurse faculty. In exchange for completion of up to four years of post-graduation full-time nurse faculty employment in an accredited school of nursing, the program authorizes cancellation of up to 85 percent of the original student loan amount (plus interest thereon). EDA's American Rescue Plan Good Jobs Challenge
(Application Deadline: January 26, 2022)

EDA's American Rescue Plan Good Jobs Challenge aims to get Americans back to work by building and strengthening systems and partnerships that bring together employers who have hiring needs with other key entities to train workers with in-demand skills that lead to good-paying jobs. Through the Good Jobs Challenge, EDA is allocating \$500 million to collaborative skills training systems and programs. EDA encourages efforts to reach historically underserved populations and areas, communities of color, women, and other groups facing labor market barriers such as persons with disabilities, disconnected youth, individuals in recovery, individuals with past criminal records, including justice impacted and reentry participants, serving trainees participating in the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) and Women, Infants and Children (WIC), and veterans and military spouses. These systems and partnerships will create and implement industry-led training programs, designed to provide skills for and connect unemployed or underemployed workers to existing and emerging job opportunities. Ultimately, these systems are designed to train workers with the skills to secure a union job or a quality job that provides good pay, benefits, and growth opportunities. [LEARN MORE](#)

State**NCDHHS Community Rehabilitation Programs**
(Application Deadline: Rolling)

Priority 2 - Emotional Well-Being: Strategies and activities support emotional well-being of students and staff. Priority 3 - Healthy Out-of-School-Time: Strategies and activities support healthy eating, physical activity, and emotional well-being of students and staff in out-of-school time programs. Priority 4 - School Administrator Support and Action for Healthy Schools: Strategies and activities support adoption of Whole School, Whole Community, Whole Child model policies within districts and schools that address healthy eating, physical activity, and emotional well-being of students and staff. Recipients will provide support through professional development and technical assistance, dissemination, partnerships, and implementation. Expected outcomes to be achieved by the end of the 5-year period of performance include: 1) Increased use of CDC and other evidence-based tools and resources; 2) Increased adoption and implementation of evidence-based school health policies, practices, and programs among state education agencies, districts, schools, and out-of-school time programs; and 3) Expansion of school-based mental health and health services. School-Based Healthcare Solutions Network: COVID-19 Student Support Recovery Act (Application Deadline: Rolling)

The purpose of this program is to promote a collaborative and integrated approach amongst the education and healthcare community to ensure students succeed academically, socially, and emotionally. The funding will support the placement of licensed mental health professionals on school campuses. Licensed mental health professionals will provide mental health services and coordinate academic-support activities in collaboration with school district designated program personnel. [LEARN MORE](#)

Hearst Foundations Grants (Application Deadline: Rolling)

The Hearst Foundations support well-established nonprofit organizations that address significant issues within their major areas of interests – culture, education, health and social service – and that primarily serve large demographic and/or geographic constituencies. In each area of funding, the Foundations seek to identify those organizations achieving truly differentiated results relative to other organizations making similar efforts for similar populations. The Foundations also look for evidence of sustainability beyond their support. The Hearst Foundations fund educational institutions demonstrating uncommon success in preparing students to thrive in a global society. The Foundations' focus is largely on higher education, but they also fund innovative models of early childhood and K-12 education, as well as professional development. Preference will be given to: (1) Higher education programs and scholarships and, on a limited basis, scholarships for post-graduate education (2) Professional development for teachers. America's Healthy Food Financing Initiative: Targeted Small Grants Program (LOI Deadline: December 7, 2021)

America's Healthy Food Financing Initiative (HFFI), a public-private partnership administered by Reinvestment Fund on behalf of USDA Rural Development, seeks to improve access to healthy foods in underserved areas. HFFI's Targeted Small Grants Program is currently offering grants ranging from \$20,000 to \$200,000, as well as technical assistance, to eligible healthy food retail projects across the country that seek to improve access to healthy food in underserved areas. Funded projects must 1) plan to expand or preserve the availability of staple and perishable foods in underserved areas with low- and moderate-income populations, and 2) if the project involves retail sales, accept or plan to accept benefits under the supplemental nutrition assistance program (SNAP). Eligible applicants include nonprofit organizations, for-profit business enterprises, cooperatively-owned businesses, institutions of higher education, state and local governmental agencies, and tribal governmental agencies. American Diabetes Association: Nutrition and Diabetes Research Awards (LOI Deadline: November 22, 2021)

While many barriers to healthy lifestyles are a result of health inequities that must be addressed at the governmental level, this RFA is soliciting research to improve adoption of lifestyle modifications at the individual and community level with interventions tailored to different racial and socioeconomic groups across the life span. Importantly, applicants should indicate how the proposed research will have a significant impact (“move the needle”) on outcomes in those individuals at risk of, or living with, diabetes. This RFA will prioritize: 1) Nutritional and/or physical activity interventions that more effectively incorporate cultural or personal preferences, psychological supports, comorbid conditions, socioeconomic status, food insecurity, and other factors that may impact consistency with an eating and/or exercise plan and its effectiveness. 2) Approaches that better tailor medical nutrition therapy (MNT) and diabetes self-management education and support (DSMES) to different racial and socioeconomic groups in sustainable real-world settings. 3) Behavioral interventions that help encourage and sustain health diet and increased physical activity. Comparison and/or utilization of different delivery methods aided by wearable technology (e.g. accelerometers, continuous glucose monitors, etc.) and 4) Cost-effectiveness studies to support third-party coverage and policy change. The goal of this RFA is to identify person-centered, yet scalable, dietary and lifestyle interventions with the greatest potential for adoption and maintenance of diabetes-preventing or diabetes-mitigating lifestyles by individuals at greatest risk. The breakdown of targeted grant types is: Innovative Clinical or Translational Science, Junior Faculty Development, and Postdoctoral Fellowship Awards. [LEARN MORE](#)

RWJF Pioneering Ideas: Exploring the Future to Build a Culture of Health (Application Deadline: Rolling)

Pioneering Ideas: Exploring the Future to Build a Culture of Health seeks proposals that are primed to influence health equity in the future. We are interested in ideas that address any of these four areas of focus: Future of Evidence; Future of Social Interaction; Future of Food; Future of Work. Additionally, we welcome ideas that might fall outside of these four focus areas, but which offer unique approaches to advancing health equity and our progress toward a Culture of Health. We want to hear from scientists, anthropologists, artists, urban planners, community leaders—anyone, anywhere who has a new or unconventional idea that could alter the trajectory of health, and improve health equity and well-being for generations to come. The changes we seek require diverse perspectives and cannot be accomplished by any one person, organization or sector. [LEARN MORE](#)

The Tony Robbins Foundation (Application Deadline: Rolling)

Dedicated to meeting challenges within the global community, creating solutions and taking action, The Tony Robbins Foundation provides monetary donations to various organizations around the world. Funding requests are evaluated on an ongoing basis. We look for organizations that align with our mission to empower individuals and organizations to make a significant difference in the quality of life of those often forgotten. We’re dedicated to creating positive changes in the lives of youth, seniors, the hungry, homeless and the imprisoned population, all who need a boost envisioning a happier and deeply satisfying way of life. NPS Historic Preservation Fund - African American Civil Rights: Preservation Grants and History Grants

(Application Deadlines: December 1, 2021)

The National Park Service's (NPS) African American Civil Rights Grant Program (AACR) will document, interpret, and preserve the sites and stories of the full history of the African American struggle to gain equal rights as citizens. The NPS 2008 report, Civil Rights in America, A Framework for Identifying Significant Sites, will serve as a guide in determining the appropriateness of proposed projects and properties. AACR Preservation Grants are funded by the Historic Preservation Fund (HPF), administered by the NPS, and will fund a broad range of preservation projects for historic sites including: architectural services, historic structure reports, preservation plans, and physical preservation to structures. Grants are awarded through a competitive process and do not require non-Federal match. There are separate funding announcements for physical preservation projects and for historical research/documentation projects. Funding announcement P21AS00431 is for physical preservation of historic sites only; P21AS00432 is for historical research/documentation/survey/nomination projects. NPS Save America's Treasures Grants

(Application Deadline: December 14, 2021)

The Save America's Treasures grant program was established in 1998 to celebrate America's premier cultural resources in the new millennium. After more than 20 years, this grant program has awarded more than 1,300 grants totaling more than \$300 million to projects across the United States. Funded projects, selected from 4,000-plus applications requesting \$1.5 billion, represent nationally significant historic properties and collections that convey our nation's rich heritage to future generations. The National Park Service administers Save America's Treasures grants in partnership with the National Endowment for the Arts, the National Endowment for the Humanities, and the Institute of Museum and Library Services. This grant program is divided into two parts: 1) One for preservation projects (for properties listed in the National Register of Historic Places for national significance or designated a National Historic Landmark. The property may be listed on either individually or as contributing to a nationally significant district). These awards are managed by the National Park Service. 2) One for projects involving collections (including artifacts, museum collections, documents, sculptures, and other works of art). These awards are managed by the Institute of Museum and Library Services. [LEARN MORE](#)

Homeless Providers Grant and Per Diem Program: GPD Capital Grant (Application Deadline: December 6, 2021)

During the National Emergency due to COVID-19, VA announces the availability of approximately \$75 million in capital grants to increase safety and reduce the risk to Veterans in GPD transitional housing who otherwise would be experiencing homelessness. Funding for grants awarded under this NOFO is made available through the American Rescue Plan Act of 2021. This NOFO responds to the mounting need for equity in communities where evidence suggests that the existing supply of transitional housing is inadequate to meet the demand of unsheltered Veterans. As shown in the 2020 Annual Homelessness Assessment Report released by the U.S. Department of Housing and Urban Development in January 2021, although the increase in the number of Veterans experiencing homelessness between 2019 and 2020 was small (i.e. less than 1%), the increase was entirely among Veterans staying in unsheltered places. The funding offered under this NOFO will allow current GPD grantees to improve the transitional housing they offer to Veterans, potentially making transitional housing more attractive than unsheltered places for Veterans who previously were difficult to outreach. By increasing the availability of private accommodations, this funding will provide for the safety of Veterans experiencing homelessness and reduce or avoid the risk associated with shared or congregate accommodations. This is the second batch of funding in a limited series of funding opportunities designed to continue relief efforts in response to COVID-19. While the first batch of funding, made available through the CARES Act, supported a remarkable 200% more grants than originally forecasted, the funding did not reach all of the communities in need. Therefore, this second opportunity targets other communities in need, such as high-cost areas, by increasing the funding available, by continuing to focus on current GPD grantees and continuing to hold applicants to high standards. VA continues to monitor current events as they impact the transitional housing needed in communities. VA is committed to supporting community-based organizations as they transform programs and meet the challenge of providing high-quality transitional housing to Veterans experiencing homelessness. National Telecommunications and Information Administration: Connecting Minority Communities Pilot Program

(Application Deadline: December 1, 2021)

The Connecting Minority Communities Pilot Program provides new federal funding for the Assistant Secretary to make grants for the expansion of broadband internet access, connectivity, and digital inclusion. The Act authorizes new federal funding for the Assistant Secretary to make grants to eligible recipients in anchor communities: for the purchase of broadband internet access service or any eligible equipment, or to hire and train information technology personnel; to facilitate educational instruction and learning, including through remote instruction; to operate a minority business enterprise (MBE); or to operate a tax-exempt 501(c)(3) organization. The Act also authorizes grants to a consortium, led by an eligible recipient institution (i.e., educational institution), that includes an MBE or a tax-exempt 501(c)(3) organization. [LEARN MORE](#)

EDA's American Rescue Plan Good Jobs Challenge

(Application Deadline: January 26, 2022)

EDA's American Rescue Plan Good Jobs Challenge aims to get Americans back to work by building and strengthening systems and partnerships that bring together employers who have hiring needs with other key entities to train workers with in-demand skills that lead to good-paying jobs. Through the Good Jobs Challenge, EDA is allocating \$500 million to collaborative skills training systems and programs. EDA encourages efforts to reach historically underserved populations and areas, communities of color, women, and other groups facing labor market barriers such as persons with disabilities, disconnected youth, individuals in recovery, individuals with past criminal records, including justice impacted and reentry participants, serving trainees participating in the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) and Women, Infants and Children (WIC), and veterans and military spouses. These systems and partnerships will create and implement industry-led training programs, designed to provide skills for and connect unemployed or underemployed workers to existing and emerging job opportunities. Ultimately, these systems are designed to train workers with the skills to secure a union job or a quality job that provides good pay, benefits, and growth opportunities. [LEARN MORE](#)

EDA Public Works and Economic Adjustment Assistance Programs Including CARES Act Funding

(Application Deadline: Rolling)

Under this NOFO, EDA solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and EAA programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities. EDA provides strategic investments on a competitive-merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States. Past projects have included funding for water and wastewater projects in hospitals and healthcare facilities and road infrastructure projects that would support the expansion of healthcare facilities. Funding is available for: Public Works Projects (Water and sewer system improvements, Industrial parks, Shipping and logistics facilities, Workforce training facilities, Brownfield development, Telecommunications infrastructure and development facilities.)

RWJF Transforming Academia for Equity (Application Deadline: December 6, 2021)

Academic institutions have evolved over time based upon historical priorities and interests. The result has been to continue promotion and reward structures that disproportionately advantage faculty from mainstream backgrounds who often propose traditional research approaches and topics. While institutional racism started a very long time ago, the structures and policies and their impacts have evolved and remain. Current institutional leaders play a critical role in identifying and dismantling racist, exclusionary practices and policies that ultimately impact the type and quality of health equity research produced by historically underrepresented researchers and its subsequent impact on communities and society. This initiative is designed to unpack, understand, and shape the contextual and intervening conditions necessary for underrepresented scholars to thrive professionally and personally—and in turn, be better able to contribute to and expand health equity-related research and evidence that can help build a Culture of Health. [LEARN MORE](#)

Golden LEAF Open Grants Program (Application Deadline: Rolling)

The Golden LEAF Foundation is committed to using the funds entrusted to it for projects that show the most potential for strengthening North Carolina's long-term economy, especially in tobacco-dependent, economically distressed, and/or rural communities. Golden LEAF makes grants for projects that the Foundation's Board of Directors believes have extraordinary merit and address the Foundation's purposes as set forth in its Charter. Grants in this program are not expected to exceed \$200,000. Since requests are likely to far exceed funds available, the Foundation will be looking for projects in the following focus areas of Economic Investment and Job Creation, Workforce Preparedness and Education, Agriculture, and Community Vitality.

Forecasted Federal Grants

HRSA Regional Public Health Training Center (Estimated Application Deadline: February 7, 2022)

The purpose of this program is to increase the number of individuals in the public health workforce, enhance the quality of this workforce, improve the ability of the workforce to meet national, state, and local health care needs, expand public health in the primary care setting and develop the public health leadership. This program aims to strengthen the public health workforce through tailored training and technical assistance involving collaborative, community-based projects involving state and local health departments, primary care providers, and related organizations (to include non-traditional partners) to help them work together to address critical local public health needs. [LEARN MORE](#)

HRSA Nurse Education, Practice, Quality and Retention: Mobile Health Training Program (Estimated Application Deadline: February 8, 2022)

This NOFO is focused on the training and development of the future nursing workforce (e.g. mobile clinics, pipeline, clinical training sites, addressing health equity and social determinants of health). [LEARN MORE](#)

SAMHSA First Responders-Comprehensive Addiction and Recovery Act Grants (Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to allow first responders and members of other key community sectors to administer a drug or device approved or cleared under the Federal Food, Drug, and Cosmetic Act (FD&C Act) for emergency reversal of known or suspected opioid overdose. Recipients will train and provide resources to first responders and members of other key community sectors at the state, tribal, and local governmental levels on carrying and administering a drug or device approved or cleared under the FD&C Act for emergency treatment of known or suspected opioid overdose. Recipients will also establish processes, protocols, and mechanisms for referral to appropriate treatment and recovery support services, and safety around fentanyl, carfentanil, and other dangerous licit and illicit drugs. [LEARN MORE](#)

SAMHSA Certified Community Behavioral Health Clinic Expansion Grants (Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to increase access to and improve the quality of community mental and substance use disorder treatment services through the expansion of CCBHCs. CCBHCs provide person- and family-centered integrated services. The CCBHC Expansion grant program must provide access to services including 24/7 crisis intervention services for individuals with serious mental illness (SMI) or substance use disorders (SUD), including opioid use disorders; children and adolescents with serious emotional disturbance (SED); and individuals with co-occurring mental and substance disorders (COD). SAMHSA expects that this program will provide comprehensive 24/7 access to community-based mental and substance use disorder services; treatment of co-occurring disorders; and physical healthcare. [LEARN MORE](#)

SAMHSA Garrett Lee Smith State/Tribal Youth Suicide Prevention and Early Intervention Grant Program

(Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to support states and tribes with implementing youth suicide prevention and early intervention strategies in schools, educational institutions, juvenile justice systems, substance use programs, mental health programs, foster care systems, and other child and youth-serving organizations. It is expected that this program will: 1) increase the number of youth-serving organizations who are able to identify and refer youth at risk of suicide; 2) increase the capacity of clinical service providers to assess, manage, and treat youth at risk of suicide; and 3) improve the continuity of care and follow-up of youth identified to be at risk for suicide, including those who have been discharged from emergency department and inpatient psychiatric units. [LEARN MORE](#)

SAMHSA Garrett Lee Smith (GLS) Campus Suicide Prevention Grant

(Estimated Application Deadline: TBD)

The purpose of this SAMHSA program is to develop a comprehensive, collaborative, well-coordinated, and evidence-based approach to: 1) enhance mental health services for all college students, including those at risk for suicide, depression, serious mental illness (SMI)/serious emotional disturbances (SED), and/or substance use disorders that can lead to school failure; 2) prevent mental and substance use disorders; 3) promote help-seeking behavior and reduce negative public attitudes; and 4) improve the identification and treatment of at-risk college students so they can successfully complete their studies. It is expected that this program will reduce the adverse consequences of SMI/SED and substance use disorders, including suicidal behavior, substance-related injuries, and school failure. [LEARN MORE](#)

SAMHSA Minority AIDS Initiative (Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to integrate evidence-based, culturally competent mental and substance use disorder treatment with HIV primary care and prevention services. The population of focus is individuals with a serious mental illness (SMI) or co-occurring disorder (COD) living with or at risk for HIV and/or hepatitis in at-risk populations, including racial and ethnic minority communities. SAMHSA expects that this program will reduce the incidence of HIV and improve overall health outcomes for individuals with SMI or COD. [LEARN MORE](#)

SAMHSA Harm Reduction Program Grant (Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to expand harm reduction efforts for community-based overdose prevention programs, syringe services programs, and other harm reduction services. Funding will be used to prevent and control the spread of infectious diseases and the consequences of such diseases for individuals with, or at risk of developing substance use disorders (SUD), support distribution of opioid overdose reversal medication to individuals at risk of overdose, connecting individuals at risk for, or with, a SUD to overdose education, counseling, and health education, and encouraging such individuals to take steps to reduce the negative personal and public health impacts of substance use or misuse. [LEARN MORE](#)

SAMHSA Substance Abuse and HIV Prevention Navigator Program for Racial/Ethnic Minorities (Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to provide services to those at highest risk for HIV and substance use disorders. The program proposes to use a navigation approach (Community Health Workers, Neighborhood Navigators, and Peer Support Specialists) to expedite services for these populations. The program will provide training and education around the risks of substance misuse, provide education on HIV/AIDS, and provide needed linkages to service provision for individuals with HIV. [LEARN MORE](#)

SAMHSA Rural Emergency Medical Services Training Grant (Estimated Application Deadline: TBD)

The purpose of this program is to recruit and train emergency medical services (EMS) personnel in rural areas. SAMHSA recognizes the great need for emergency services in rural areas and the critical role EMS personnel serve across the country. [LEARN MORE](#)

SAMHSA Targeted Capacity Expansion (Estimated Application Deadline: TBD)

The purpose of this program is to develop and implement targeted strategies for substance use disorder treatment provision to address a specific population or area of focus identified by the community. The purpose of the TCE program is to address an unmet need or underserved population; this program aims to enable a community to identify the specific need or population it wishes to address through the provision of evidence-based substance use disorder treatment and/or recovery support services. [LEARN MORE](#)

SAMHSA Services Grant Program for Residential Treatment for Pregnant and Postpartum Women

(Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to provide pregnant and postpartum women treatment for substance use disorders through programs in which, during the course of receiving treatment, 1) the women reside in or receive outpatient treatment services from facilities provided by the programs; 2) the minor children of the women reside with the women in such facilities, if the women so request; and 3) the services are available to or on behalf of the women.

SAMHSA Minority AIDS Initiative: Substance Use Disorder Treatment for Racial/Ethnic Minority Populations at High Risk for HIV/AIDS

(Estimated Application Deadline: TBD)

The purpose of this SAMHSA grant program is to increase engagement in care for racial and ethnic minority individuals with substance use disorders (SUD) and/or co-occurring substance use and mental disorders (COD) who are at risk for HIV or are HIV positive and that receive HIV services/treatment. [LEARN MORE](#)

SAMHSA Medication-Assisted Treatment – Prescription Drug and Opioid Addiction

(Estimated Application Deadline: TBD)

The purpose of this SAMHSA program is to expand/enhance access to medication-assisted treatment (MAT) services for persons with an opioid use disorder (OUD) seeking or receiving MAT. The desired outcomes for this program are: 1) an increase in the number of individuals with OUD receiving MAT; and 2) a decrease in illicit opioid drug use and prescription opioid misuse at six-month follow-up. [LEARN MORE](#)

ACL 2022 Empowering Communities to Deliver and Sustain Evidence-Based Falls Prevention Programs

(Estimated Application Deadline: TBD)

Through this funding opportunity, the Administration on Aging (AoA), part of the Administration for Community Living (ACL), plans to award 6 to 8 cooperative agreements with a three-year project period, subject to availability of funds. It is designed to help communities reduce falls through the implementation of evidence-based falls prevention programs with two goals: Goal 1: Develop or expand capacity to significantly increase the number of older adults and adults with disabilities, particularly those in underserved areas/populations, who participate in evidence-based falls prevention programs to empower them to reduce the risk of falls. Goal 2: Enhance the sustainability of evidence-based falls prevention programs through the implementation of one or more robust sustainability strategies, including collaboration with sustainability partner(s).
