

# saving lives from preventable death: funding opportunity for opioid planning

## let's make the most of north carolina's new opioid resources

Dogwood Health Trust is requesting proposals from counties and municipalities located in our service region in Western North Carolina that have not previously received opioid planning funding from Dogwood Health Trust and would like to conduct opioid-related collaborative planning in their communities aligned with the distribution of proceeds from the national opioid settlement agreement announced on July 21, 2021.

Each opioid planning grant will provide up to \$300,000 per year for up to two years to support collaborative planning projects between counties, municipalities, or tribal nations and 501(c)(3) organizations and other community partners that align with the strategies listed in the [North Carolina Memorandum of Agreement \(NC MOA\)](#) executed by the NC Department of Justice and the NC Association of County Commissioners.

We are particularly interested in projects that include multi-county planning efforts and in collaboratives that include multiple partner organizations.

## at-a-glance

**Purpose:** To plan and prepare for use of funding to be distributed to counties and municipalities in Western North Carolina as a result of the national opioid settlement.

**Funding available:** We will consider grants of up to \$300,000 per year for up to two years. Opioid planning proposals may include requests to support:

- facilitation and/or coordination of collaborative planning
- needs assessment, data collection and/or analysis
- partnership building
- development of workforce, implementation and/or sustainability plans
- capacity building
- technical assistance
- administration/reporting

*Capacity building* is defined by Dogwood Health Trust as funds that will help improve a grantee's ability to tackle specific issues. Examples can include (but are not limited to): strengthening the capacity of organizations to work in collaboration across organization and industry lines, supporting the capacity of leaders to work more effectively by exposing them to new ways of thinking and acting towards measurable change, and strengthening the capacity of an organization to use new tools to more effectively

communicate with its constituents and community.

**Priority** will be given to proposals that promote:

- Alignment with the planning process (or any part of the planning process) described in Exhibit C to the NC MOA, one of more of the strategies listed in Exhibit A to the NC MOA, or any strategy described in our state's Opioid and Substance Use Action Plan 3.0. (See Resource List below.)
- Collaboration with multiple partners or use of multi-jurisdictional approaches.
- Alignment with existing local or regional plans or initiatives that address opioid or other substance misuse. Examples include:
  - Community health improvement plans
  - Local substance use coalitions/task forces
  - Drug Free Communities grants
  - Rural Communities Opioid Response Program (RCORP) planning or implementation grants
- Engagement with any of the following groups:
  - Communities of color
  - Indigenous communities
  - LGBTQI+ individuals
  - Persons being released from incarceration
  - Rural communities
  - Persons with "lived experience" and those impacted by substance misuse or substance use disorder

**Applicants are not required to sign onto the NC MOA or the national opioid settlement to be considered for an opioid planning grant.**
