MEASUREMENT
Our intent here is to learn more about how a general operating support grant would support your organization's ability to become even more effective in its work. Key activities and more specific indicators could relate to
your organization's financial health, governance, program delivery, communications, strategic planning, or other aspects of your organization's health and capacity. These activities and indicators do not need to be tied
directly to how you may use your potential Dogwood Health Trust grant funds. General operating support allows organizations to allocate resources where they are needed most, without being restricted by specific project requirements or timelines.
* Please share two to three key (new or existing) activities that this general operating support grant will allow your organization to continue and/or commence.
Word count of 1500
* How will you know if you are making progress in your policy and advocacy work in the next two years? What will be your markers of success?
