Our Interconnected Priorities: 1) Thriving Children: We support a healthy start and quality learning experiences for all children. 2) Working Families: We invest in efforts to help families obtain stable, high-quality jobs. 3) Equitable Communities: We want all communities to be vibrant, engaged and equitable. Equitable communities are places of opportunity where all children and families can develop, grow and contribute – where people recognize that community well-being depends on the participation of every person. Making communities more equitable requires all of us to confront how racism and bias affects our history and present day experiences, to heal from the resulting fractures to our relationships, and to begin reshaping the systems that hold back so many among us. By first acknowledging and understanding the root causes of inequity, communities can then come together to envision and chart a course for the transformation. Advancing racial equity and racial healing, engaging communities in solving their own problems and developing leaders capable of guiding change on this scale is essential to creating vibrant, equitable communities. These three approaches, known as our DNA, are embedded in all we do. [LEARN MORE](#)

(Application Deadline: Rolling, must reach out to the foundation)

The Collaborative for Gender + Reproductive Equity (CGRE) is a one-of-a-kind community that creates the space for funders to learn together, amplify the impact of their giving, and accelerate change in five-year increments. We provide funding to unite advocates who are pioneering new approaches across issue silos to defend gender, reproductive, and racial equity and work towards a future where every person has the resources and autonomy to thrive. State Power-Building Grants - We provide flexible multi-year support to organizations and issue-based campaigns that build movement power and shift public opinion towards equity at the state level. To ensure leaders can build long-term power and sustain their programs beyond knee-jerk interventions, we provide multi-year support to state-based organizations and issue-specific campaigns—particularly those led by impacted communities, including women, gender-expansive individuals, and BIPOC communities—who are working towards a vision of equity that includes protecting and advancing economic opportunity, reproductive autonomy, racial justice, and a representative democracy. The Just Trust

(LOIs accepted on a rolling basis for organizations already doing this work in NC)

The Just Trust is dedicated to powering criminal justice reform, state-by-state and across the nation. The Trust provides grants and support to nonprofit organizations and efforts working to build a more dignified, humane, and much smaller engine of justice in the United States. The Trust's goals include the following: (1) Shrink the footprint of the system: The grounds for stop, arrest, conviction, and incarceration are broad and biased. A smaller criminal justice system means less criminalization, shorter sentences, and fewer people on supervision for less time. (2) Further alternatives to address harm: The way the U.S. has historically addressed crime and violence has lacked accountability, humanity, and creativity. The Trust supports expanding bold, community-centered models to restore relationships and hold each other accountable when there's been harm. (3) Uphold human dignity and grace: The justice system must be humane, from the moment someone comes into contact with the system to well after they come home, people deserve to be embraced as neighbors, colleagues, and citizens, especially in communities who have been most impacted by the cycles of harm the system perpetuates. (4) Center safety and prevention: Communities are defining and demanding what really creates safety and prevents crime in the first place: jobs, housing, health, and education. The Trust supports advocates that are working with their communities to find solutions that strengthen the foundations for well-being. [LEARN MORE](#)

RWJF Evidence for Action: Innovative Research to Advance Racial Equity

(Application Deadline: November 1, 2024)

Evidence for Action prioritizes research to evaluate specific interventions (e.g., policies, programs, practices) that have the potential to counteract the harms of structural and systemic racism and improve health, well-being, and equity outcomes. We are concerned both with the direct impacts of structural racism on the health and well-being of people and communities of color (e.g., Black, Latina/o/x, Indigenous, Asian, Pacific Islander people, and other races and ethnicities)—as well as the ways in which racism intersects with other forms of marginalization, such as having low income, being an immigrant, having a disability, or identifying as LGBTQ+ or a gender minority. This

funding is focused on studies about upstream causes of health inequities, such as the systems, structures, laws, policies, norms, and practices that determine the distribution of resources and opportunities, which in turn influence individuals' options and behaviors. Research should center on the needs and experiences of communities exhibiting the greatest health burdens and be motivated by real-world priorities. [LEARN MORE](#)

The Foundation for a Just Society supports efforts that advance long-term, structural change and meet immediate needs that enable the women, girls, and LGBTQI people most affected by injustice to be leaders, strategists, and agents of change. Our grantmaking seeks to build power and common cause among women, girls, and LGBTQI people and promote gender and racial justice. The decisions we make are guided by the leadership, values, strategies, and approaches within movements rather than a narrow understanding of single issues or quantifiable impact. We believe that solutions must be as sophisticated as the complex challenges they seek to address, and that deep and enduring transformation takes time. We prioritize multi-year, general operating support and avoid restrictions because organizations are able to work more strategically when they have the flexibility to recover from setbacks, seize opportunities, or shift tactics as needed. Our grants are made for up to three years and range in size from \$50,000-\$500,000 per year.
