Equitable communities are places of opportunity where all children and families can develop, grow and contribute – where people recognize that community well-being depends on the participation of every person. Making communities more equitable requires all of us to confront how racism and bias affects our history and present day experiences, to heal from the resulting fractures to our relationships, and to begin reshaping the systems that hold back so many among us. By first acknowledging and understanding the root causes of inequity, communities can then come together to envision and chart a course for the transformation. Advancing racial equity and racial healing, engaging communities in solving their own problems and developing leaders capable of guiding change on this scale is essential to creating vibrant, equitable communities. These three approaches, known as our DNA, are embedded in all we do. [LEARN MORE](#)

(2) Further alternatives to address harm: The way the U.S. has historically addressed crime and violence has lacked accountability, humanity, and creativity. The Trust supports expanding bold, community-centered models to restore relationships and hold each other accountable when there's been harm. (4) Uphold human dignity and grace: The justice system must be humane, from the moment someone comes into contact with the system to well after they come home, people deserve to be embraced as neighbors, colleagues, and citizens, especially in communities who have been most impacted by the cycles of harm the system perpetuates. (4) Center safety and prevention: Communities are defining and demanding what really creates safety and prevents crime in the first place: jobs, housing, health, and education. The Trust supports advocates that are working with their communities to find solutions that strengthen the foundations for well-being. [LEARN MORE](#)

Our grants are made for up to three years and range in size from \$50,000-\$500,000 per year.
