As a foundation, we use a variety of change-making tools – grantmaking, impact investing, networking and convening. With our support, grantees and partners work together to make measurable improvements in children’s lives. Our Interconnected Priorities: 1) Thriving Children: We support a healthy start and quality learning experiences for all children. 2) Working Families: We invest in efforts to help families obtain stable, high-quality jobs. 3) Equitable Communities: We want all communities to be vibrant, engaged and equitable. Equitable communities are places of opportunity where all children and families can develop, grow and contribute – where people recognize that community well-being depends on the participation of every person. Making communities more equitable requires all of us to confront how racism and bias affects our history and present day experiences, to heal from the resulting fractures to our relationships, and to begin reshaping the systems that hold back so many among us. By first acknowledging and understanding the root causes of inequity, communities can then come together to envision and chart a course for the transformation. Advancing racial equity and racial healing, engaging communities in solving their own problems and developing leaders capable of guiding change on this scale is essential to creating vibrant, equitable communities. These three approaches, known as our DNA, are embedded in all we do. [LEARN MORE](#)

The Just Trust

(LOIs accepted on a rolling basis for organizations already doing this work in NC)

The Just Trust is dedicated to powering criminal justice reform, state-by-state and across the nation. The Trust provides grants and support to nonprofit organizations and efforts working to build a more dignified, humane, and much smaller engine of justice in the United States. The Trust's goals include the following: (1) Shrink the footprint of the system: The grounds for stop, arrest, conviction, and incarceration are broad and biased. A smaller criminal justice system means less criminalization, shorter sentences, and fewer people on supervision for less time. (2) Further alternatives to address harm: The way the U.S. has historically addressed crime and violence has lacked accountability, humanity, and creativity. The Trust supports expanding bold, community-centered models to restore relationships and hold each other accountable when there's been harm. (3) Uphold human dignity and grace: The justice system must be humane, from the moment someone comes into contact with the system to well after they come home, people deserve to be embraced as neighbors, colleagues, and citizens, especially in communities who have been most impacted by the cycles of harm the system perpetuates. (4) Center safety and prevention: Communities are defining and demanding what really creates safety and prevents crime in the first place: jobs, housing, health, and education. The Trust supports advocates that are working with their communities to find solutions that strengthen the foundations for well-being. [LEARN MORE](#)

We believe that solutions must be as sophisticated as the complex challenges they seek to address, and that deep and enduring transformation takes time. We prioritize multi-year, general operating support and avoid restrictions because organizations are able to work more strategically when they have the flexibility to recover from setbacks, seize opportunities, or shift tactics as needed. Our grants are made for up to three years and range in size from \$50,000-\$500,000 per year.
